Granted Right to Withdraw Republic Steel Litigation

## CRITICS ANSWERED

Tribunal Denies Reversing Itself in Stockyards Case

Washington—(P)—The supreme court ruled today that the national labor relations board may withdraw from the third circuit court of appeals at Philadelphia litigation involving an order directing the Republic Steel corporation to reinstate 5,000 striking employees.

Justice Roberts delivered the opinion that reversed a decision by the circuit court judges refusing permission to withdraw and directing the board to proceed with the litigation by filing a transcript of the record. Justice Butler and McReynolds dissented and Justice Stone and Cardozo did not participate.

"The circuit court," Roberts said, "was without jurisdiction of the subject matter. If the board had complied with the orders made, a hearing would have resulted respecting the legality of supposed action of the board which was not in law or fact the final action, review of which the statute provides."

"No adequate remedy would be open to the board by way of certiorari from the court's ultimate review of an order which the board was authorized and desired to set aside."

### May Affect Ford Case

Officials studied the high court's decision to determine whether it also would apply to the board's effort to withdraw from the circuit court at Covington, Ky. Litigation involving the Ford Motor company. In that case the board said it already had filed a transcript.

Immediately after the decision was delivered, the labor board gave notice it would renew its attempt to reopen the Ford case.

Robert Watts, acting general counsel for the board, disclosed the board's intentions by filing with the circuit court at Covington, Ky., a long list of objections to a Ford petition to take depositions from board members and employees.

Watts contended the Ford petition was "going behind the record." He also termed it a "fishing expedition" and contended that the Covington court had no right to authorize the inquiries counsel for Ford planned to make.

In objecting to the Ford petition for permission to take depositions, Watts asserted that Ford "intends to put questions of an impudent, scurrilous and malicious nature."

Withdrawal of the litigation, in order to adopt new procedure, was decided upon after the supreme court on April 25 had condemned procedure followed by Secretary Wallace in ordering a reduction of rates that commission men on the Kansas City stockyards could charge. The labor relations board wished to adopt new procedure in order to meet possible supreme court objections.

Both Republic Steel and the Ford Motor company complained that the board, before issuing its orders, had not given them trial examiner's reports and permitted them to reply. They contended this had prejudiced their rights and denied them a fair hearing.

The board contended the labor relations act empowered it to withdraw litigation any time before a transcript was filed. It asked the supreme court for a writ of mandamus directing the circuit court to take the requested action.

The high court refused to reconsider its recent action declining to review a challenge to Remington Rand, Inc., of a labor board order directing it to reinstate 4,000 striking employees.

An appeal by the central executive council of Remington Rand Employees' associations challenging the board order, also was turned down.

The employees' association is an organization of company employees.

### 81ST BIRTHDAY

Castel Gondolfo—(P)—Letters, telegrams and flowers poured into Pope Pius' summer villa today, congratulating him upon his 81st birthday.

Among the messages was one from Eugenio Cardinal Pacelli, papal secretary of state, on behalf of the papal delegation to the Eucharistic congress at Budapest. In Cardinal Pacelli's absence, Monsignor Domenico Tardini, his assistant, read the messages to the pope.

### Levine Is Unable To Offer Clue in Slaying of Son

Ransom Only Motive, He Thinks; Case Entirely In Hands of Police

New Rochelle, N. Y.—(P)—Murray Levine declared today he still had no idea of who kidnapped and killed his 12-year-old son or why, and said the case henceforth was "entirely in the hands of the police."

Speaking in embittered tones, the moderately well-to-do New York lawyer said ransom was the only motive he could advance for the abduction of his boy, whose mutilated body was washed ashore on Long Island sound Sunday night after three months of mystery.

### FEARS FOR SAFETY

Crowd of Truck Farmers And Citrus Growers May Form Posse

Princeton, Fla.—(P)—A packet of \$10,000 in small bills was dropped in a country road today in an effort to ransom 5-year-old James Bailey Cash, Jr., from kidnapers who seized him in his sleep Saturday night.

The senior Cash, who keeps a general store and filling station in this farming community, tossed the currency from his car on a solitary drive before dawn at sight of blinking headlights and a halo from the side of the road—signals specified in a ransom note.

He returned in high hopes of regaining his son by noon but as the hour passed apparently without a sign from the abductors, grave fear was felt for the lad's safety. The mother was reported prositated.

A crowd of some 300 persons, mostly overalled truck farmers and citrus growers, gathered outside the frame two-story Cash apartment building and filling station on the main highway and discussed forming posses to search the region.

W. P. Cash, uncle of the boy, expressed the view the kidnaper was a local resident. The belief was strengthened by the circumstance that the ransom notes contained maps reflecting an intimate knowledge of the countryside. They were drawn to direct the father in delivering the ransom.

Stolen From Bed

Blond, blue-eyed James Bailey Cash, Jr. was stolen from his bed while his mother went next door to help her husband close his grocery for the night. The kidnaper slit a screen, unlatched a door and took the pajama-clad boy away.

A note, one of three in the case, threatened death to the lad, known in the neighborhood as "Skeegie" if the father called authorities but Cash notified the federal bureau of investigation at Miami, 23 miles north of here, and J. Edgar Hoover at Washington assigned squad of inspectors who flew here Sunday.

Asks Treasury Report on Fund

Wheeler Wants Accounting on Use of Stabilization Money

Washington—(P)—Senator Wheeler (D-Mont.) demanded today that the treasury give congress an accounting of its use of the \$2,000,000 stabilization fund designed to help maintain international monetary equilibrium.

Taking the floor during debate on the \$2,000,000,000 relief bill, Wheeler told the senate that the fund either "wasn't correct in theory, or hasn't been operated the way congress intended it should."

"It seems to me to be time that the congress of the United States knew something as to what is being done with that \$2,000,000,000," he declared.

His remarks were prompted by an assertion by Senator Logan (D-Ky.) that "we will never get the country out of its difficulties by appropriating money to spend for relief unless something else is done."

He advocated federal reserve board action to lift prices to the 1928 level with monetary and credit levers.

Wheeler, agreeing with Logan, said the treasury's \$2,000,000,000 "paper profit" from devaluation of the dollar was intended to be used to support of other currencies and prevent their depreciation.

"That hasn't been done," he declared, adding that currencies of most other countries except England had been depreciated since the fund was created.

In the first four months of 1938 alone there were 2,060 fewer traffic deaths in the nation than during the corresponding months of 1937, a 19 per cent reduction. Yet mileage figures for the first three months of this year show a 4 per cent increase over last year in the same period.

If the present rate of decrease in traffic deaths can be maintained for the rest of the year, the council estimated 7,500 lives will have been saved in comparison with last year's figures.

Those on trial are Mike Karapourous, 52, of Racine, Wis., and Joseph Russo, 24, of Chicago. They were arrested last March 17 with three Racine men, and charged with fatally beating Hancock after robbing him of \$5 in his home on April 12, 1932.

Joseph F. Nemer, 36, of Racine, has pleaded guilty to a murder charge and was scheduled to testify for the state. Trial of Edward T. Leonard, 44, who implicated the three in the slaying, has not been set. Leonard was arrested following his release from Leavenworth penitentiary after serving a sentence for automobile theft. The fifth man arrested in the case, Jerome Welch, 37, Racine, subsequently was released.

### Jury Being Chosen in Illinois Slaying Case

Waukegan, Ill.—(P)—A jury was selected today in the circuit court of Judge Ralph J. Dade for the trial of two men on charges of slaying William Hancock, 80-year-old Antioch, Ill. recluse, six years ago.

Those on trial are Mike Karapourous, 52, of Racine, Wis., and Joseph Russo, 24, of Chicago. They were arrested last March 17 with three Racine men, and charged with fatally beating Hancock after robbing him of \$5 in his home on April 12, 1932.

Providence, R. I., with a population of 256,000 went through April without a traffic fatality. The city's no-death record now exceeds 100 days, a world mark for cities of comparable population, according to the council's statistics.

Milwaukee had the best record for cities over 500,000 with a four-month death rate for 1938 of 5.5 per 100,000 population. St. Louis was second with 9.0 and Boston third with 9.3.

### Death Threat to Miner Is Aired at Trial in Kentucky

London, Ky.—(P)—George Gilbert, a coal miner, testified in the Harlan conspiracy trial today that Harry Bennett, vice president and general manager of the Harlan Fuel company, told him he would shoot him if he did not "quit writing 'U.M.W.A.' around the mine."

Gilbert declared the remark was made in the presence of John Hickey, then deputy sheriff assigned to guard the mine.

Hickey is one of the 22 law officers on trial with 22 coal company executives and 20 corporations on charges of conspiring to keep miners from organizing. Harry Bennett is not a defendant.

Gilbert said that later he was jailed by Hickey on a "trumped-up drunkenness charge." He was taken to jail, he said, by C. V. Bennett, executive of the company and a defendant in this trial.

Afterwards, he testified, he went back to work and was discharged in July, 1937, when he reported for work after attending a union convention.

### 430 are Killed In Fascist Air Attack on Town

Authorities Think Additional 100 Buried Under Debris

Barcelona—(P)—At least 430 persons were killed today in an insurgent air raid on the town of Granollers, 16 miles north of Barcelona. That many bodies were taken from the ruins and authorities believed 100 more still were buried.

Fourty bombs were dropped by five tri-motored bombers, 12 of them plunging into the market square at its most crowded hour.

Early reports indicated most of the victims were women and children.

Other bombs fell in Granollers' potato distribution district.

The entire Red Cross service of the district has been mobilized.

The raiders arrived at 9 a.m., and took only a few minutes to dump their cargo of bombs. Many women were doing their marketing. Long queues of men, women and children were waiting to get potato rations.

At one spot 55 persons were killed. Another 50 died. Approximately 25 buildings were destroyed completely.

Granollers, center of a rich potato growing district, had a normal population of 10,000, but this had been swollen by refugees from the war areas of government Spain.

The nearest hospital soon was overflowing, and as wounded were brought in they were sent on to Barcelona or nearby villages.

The defense ministry said the planes, described as Junkers (German made), apparently had tried to reach Barcelona but were forced off by this city's defenses against aircraft.

### Michigan Boy Sent to Prison for Slaying

Grand Rapids, Mich.—(P)—Assured by Superior Judge Thaddeus B. Taylor that he would be under the finest care of Warden Joost Moore, of the Southern Michigan prison, and treated with "affection, kindness and the greatest of consideration," 15-year-old William Schenck was sentenced to 23 to 10 years imprisonment today.

Young Schenck, a companion of Albert Powell, 15, on an automobile ride which culminated with the slaying of Marinus Lindhout during an attempted robbery of the latter's confectionery store last February, was convicted by a jury last week of assault with intent to rob. Young Powell is serving a life prison sentence.

Mornsen, born in Denmark, came to this country at the age of 12. He returned to Denmark in 1932 for a visit, returning in 1933.

Heavy Earth Shock Felt in California

Los Angeles—(P)—A giant earth shudder jarred a million southern California homes at 12:35 a. m. P. S. T. this morning, but spared the area of damage.

The quake, one of the most severe since the disastrous one in 1933, was felt for 200 miles along the Pacific coast from Santa Barbara to San Diego and inland 150 miles to the Mojave desert and the Coachella valley.

Alarmed families were frightened out of sleep by the rippling, sideways motion of the earth. Dishes rattled in cupboards. Light switches creaked. Houses cracked.

Long Beach, center of the destruction in '33, quickly reported "all's well," and other cities, such as Santa Barbara, San Juan Capistrano, which were hard hit by past earthquakes, went through today's without harm.

### Roosevelt and Congress Leaders Shelve Reorganization Bill for This Session

Washington—(P)—President Roosevelt and congressional leaders have shelved the government reorganization bill for this session, informed members of both the house and senate reported today.

Their report on this course was agreed upon at an early morning strategy conference at the White House as a means of clearing the way for action on pending bills, including the spending-lending measure and spending-financial adjournment.

Formal disclosure of the plan was expected to be made in statements which Senate Majority Leader Rayburn, House Majority Leader Rayburn. The four went to the White House soon after the chief executive arrived from his Memorial day weekend at Hyde Park.

Rayburn observed that congress might adjourn on the 11th or 12th. Asked what month he meant he laughed and departed.

Rayburn was said to have reported to Roosevelt that there

meant he had to move until Jack Browne, a diver, descended

five times to recover the missiles.

The Penthames at that time was unloading a cargo of wheat. She is a 3,995-ton vessel.

**Weyauwega Library Will  
Have 25th Anniversary**

**Weyauwega**—This year marks the twenty-fifth anniversary of the Weyauwega public library. Plans are being made to celebrate this year in June. This library now has 677 registered active borrowers, many of whom are rural patrons. The library consists of approximately 3,000 volumes.

Mrs. Melvin Roman, librarian, reported the annual circulation at 14,873 volumes and the highest daily record of 253 books. Mrs. Roman began work in this library in 1924, attended the Wisconsin library school at Madison in 1925 and was appointed Weyauwega librarian in 1926.

She has served as treasurer of the Wisconsin Valley Library association ever since its organization on May 16, 1936, at Marshfield.

From Oct. 5, 1912, until 1923, the library was served by volunteers. Mrs. David Jenney filled this position in the library until 1928, working with Mrs. Roman during part of that period. Miss Dorothea Jenney, daughter of the first librarian, will succeed Mrs. Roman as librarian.

Imports into Peru of used automobiles for commercial use or resale is now forbidden. A new Peruvian law also requires that passenger autos imported into that country be fully equipped with safety glass windshields and windows.

Members of the library board at work with the librarian on plans for this anniversary celebration include, A. H. Koten, W. J. Nienhaus and Mesdames I. J. Reck, L. F. Cory and Emma Haire.

Six hundred poppies were sold in Weyauwega Saturday by the Girl Scouts. Norma Prahl, daughter of Mr. and Mrs. Emil Prahl, sold 139, the highest number, and she will receive a girl scout ring as a prize.

Post-Crescent Madison Bureau Madison, Wis. The LaFollette administration today had reversed itself on an issue which provoked some of the most spirited battling in the 1937 session of the state legislature.

It is the issue of relief allocations from the state's emergency "fire alarm" relief fund. Treasurers of approximately forty Wisconsin counties which did not expect aid from the fund this week were to receive checks from the state public welfare department covering 5 per cent of their total local relief grants during the period from October, 1937, to March of this year.

Thus is directly contradicted the position of the administration last summer when the relief appropriation was being debated in the legislature. Southern and eastern Wisconsin legislators at that time, abetted by the powerful Wisconsin County Boards association, insisted on writing into the relief act a provision guaranteeing all counties 5 per cent, despite the fact that LaFollette lieutenants designed the \$3,000,000 fund to help out the most destitute counties and municipalities in northern Wisconsin.

## New Deal Giving Manufacturers of Autos 'Raw Deal'

Department of Justice Picks Laws It Wants to Enforce. Lawrence Says

BY DAVID LAWRENCE

Washington—An essential attribute of government is fairness. Citizens are quick to denounce a raw deal when they see one. The expectation heretofore has always been that government will give the citizens a square deal. Otherwise, faith in governmental integrity would be lacking.

These observations are prompted by the coming to a climax over the weekend of one of the rawest deals in all the history of our government—the use of federal power to punish by public humiliations the men who have led the biggest industry in our country, the men who have created jobs for and furnished jobs to hundreds of thousands of workers and who have contributed materially by their genius to the whole course of economic life in America for a quarter of a century.

For now the Roosevelt administration has obtained indictments against the leading manufacturers of the motor car industry. Men like Edsel Ford, Walter P. Chrysler and Alfred P. Sloan, with whom are they and about 60 other executives in the motor industry charged? The vague accusation is that they have violated the anti-trust laws which declare there must be no "restraint of trade." Well, everybody knows that there has been plenty of competition between the motor car manufacturers. The new charge revolves around an alleged restraint upon the automobile dealers in recommending to them plans for financing the purchase of cars by the public.

### Prevent Gyping

What sort of restraint? That's the difficult part to ascertain. The three big manufacturers have proclaimed plans of their own for installment financing by dealers, intended to prevent the public from being gyped. Smaller finance companies have protested—they wanted to get some of this business from dealers on their own terms.

The larger companies, fearing that cars would come back on the market because of poor financing arrangements, have tried to standardize these financing plans. It is on this account, doubtless, that they are to be penalized. For politics has crept into the situation and a group of smaller finance companies have put pressure on the administration to break down the financing system that has existed so that they, the smaller companies, can get more business. Some of these smaller companies are getting a good share of the financing already and are doing a good job, but others are anxious to get in on more of this financing and have persuaded the administration to help them. Whether the public continues to get the low finance rates established by the three large companies, or even lower rates, seems to have become secondary. Meanwhile, a resolution has just been adopted by congress to investigate the whole complicated subject of automobile selling, which is, of course, desirable.

Then why does the administration feel it must proceed now with criminal prosecutions before it has got all the facts? The lame excuse

offered is that the administration cannot get the facts except by public trials. Yet the Federal Trade commission, with its wide powers and draget procedure, exists for this very purpose of getting the facts on unfair trade practices.

### Ought to Know Charge

When a man is accused of crime, he ought to know the charge very definitely. He ought to know just how and where he is violating the law. And the prosecutions should not be conducted unless and until the law is specific. It isn't like reckless driving, which is the illustration nowadays given by administration officials. Certainly, a speedometer attached to every car tells the driver every second just how many miles per hour he is going, and, if he exceeds a specified speed limit, he knows instantly that he is violating the law. No such speedometer exists with respect to anti-trust laws. They are now only ambiguous statutes, but all the court decisions of the past leave the business man in doubt as to what he can and cannot do.

This has been publicly acknowledged by the president himself in his message asking that congress make a study of new anti-trust laws. Surely the square deal in government is not to prosecute criminally to find out how to interpret a complex law, but to file what are known as injunctions or civil suits. This is adequate to protect the public interest.

To all this, some officials of the department of justice answer: "As long as the present anti-trust law is on the books, whether it is a good or a bad law, we must enforce it. We have no choice."

But the odd part of it is that the department of justice does have such a choice and has actually been exercising it. The department picks what laws it will enforce and what laws it will not.

Perhaps the most conspicuous and flagrant example of how the present administration refused to prosecute criminally, even though the law is clear and guilt is plain to see, may be noted by looking at a law known as the Federal Corrupt Practices act. It provides specifically that no political committee or members thereof may solicit and no corporations may make contributions of any kind to a political campaign in which a president or vice president is being elected.

### Knew Feats

Yet the Democratic National committee has confessed it did solicit and it did acknowledge receipt of money for the sale of copies of a campaign book autographed by the president himself. Mr. Roosevelt, when confronted with the facts, said through his secretary that he signed his name to a lot of blank sheets of paper and did not know the purpose to which the autographs were to be put. Then, when all this was publicly disclosed, the Democratic National committee, with the full knowledge of the president, because it was in the newspapers, went on selling more campaign books and collecting more money in this way to pay off the deficits incurred in the 1936 election campaign.

Why hasn't this law been enforced? Why are not indictments rendered against corporation executives who violate this federal statute and against all members of the Democratic National committee who were directly or indirectly responsible? It might be found that the national committeemen in the various states were just as responsible

for these law violations as today the motor car executives are about to be held responsible in court for what their field agents are alleged to have done in relation to automobile dealers. The matter of sale of the campaign books has never been presented to a grand jury.

## 95 Rural School Students Receive Their Diplomas

Commencement Exercises Held at Fair Grounds At Chilton

Chilton — The annual commencement for rural schools was held at the fair grounds Saturday afternoon, 95 children receiving their diplomas. The program included songs, musical numbers, folk dances and recitations by the pupils, with a chorus of 200 voices, directed by Miss Faith Fletcher, supervising teacher for Calumet county. The main address was given by Superintendent C. H. Eileman of the Brillion school.

At noon a picnic lunch was served to the families of the children, and in the afternoon a field day of sports was held.

Application for the following marriage licenses were made at the office of County Clerk Roland Miller during the last week: Frebert Bastian and Roma Tamm, both of Brillion; E. J. Scharrer, Milwaukee, and Charlotte Luther, Chilton; Norbert Mohs, town of Plymouth, Sheboygan county, and Helen Urban, New Holstein; Martin Schomisch, Stockbridge, and Loretta Noll, town of Woodville; John Joss, Brillion, and Emilie Zorn, Milwaukee; Harry Sturtz, Chilton, and Angeline Lemke, Rantoul.

The annual Memorial day program was held at 1:30 Monday afternoon. All of the schools were in the procession, as well as the American Legion, its auxiliary, Woman's Relief corps, Junior Relief corps, and the city and high school bands. The speaker was Senator Ryan Duffy. Hundreds of people from away, many of them former citizens of Chilton, were present.

### Record Class

The largest class in the history of the local high school will be graduated on the evening of June 3, when 78 young people receive their diplomas. The commencement address will be given by Edward A. Fitzpatrick, dean of the school of education of Marquette university and president of Mount Mary college. The diplomas will be presented by William McHale, president of the board of education.

Mrs. George Wolfe of Hilbert was taken to St. Vincent hospital in Green Bay on Sunday and on Monday she submitted to a major operation. Her condition is reported to be satisfactory. Both Mr. and Mrs. Wolfe were former residents of this city.

The Misses Gladys Hume and Ruth Hertel spent the weekend in Madison with the former's sister, Alicia, who is a sophomore in the University of Wisconsin.

Mrs. Charles Aebscher, who spent the last few weeks in Fond du Lac with her husband, has returned to her home. Mr. Aebscher has been receiving treatments at St. Agnes hospital.

## 3 Basic Principles Listed by Speaker

'Our Great American Platform' Subject of Address at Clintonville

Clintonville—"Our Great American Platform" was the subject of the Memorial day address at Graceland cemetery by the Rev. Benjamin C. Plopper of Green Bay.

As the first of three great American principles, the pastor named religious freedom as essential to the welfare of a great nation. He reminded his listeners that in many foreign countries the citizens do not enjoy the right to worship according to the dictates of their own conscience, while in America this right is given to the people by the constitution.

The second plank in the American platform is democracy," continued the speaker, and next to religious freedom it is our greatest asset." He reminded the audience of the terrorism of a dictatorship, where people do not enjoy the freedom of speech and of the press. Mr. Plopper urged Americans to keep democracy in their platform and to not allow anyone to curtail their constitutional rights.

"Peace," was given as the third plank. Americans, a peace-loving people, were urged by the speaker to consider the great cost before entering another war. He said that war has been glorified long enough and now it is time to begin the glorification of peace. He reminded his listeners that for every \$100 spent for armaments in America, only 38 cents is spent for the promotion of peace. Mr. Plopper continued by saying that we do need an adequate defense, and we do honor our boys who died for their country both here and across the sea. "But we must do all we can to help prevent a recurrence of such a catastrophe and as Americans we must advocate 'peace among men,'" he concluded.

### Legion Services

The speaker was introduced by a former classmate at the Clintonville High school, Fred P. Gansen, chairman of the Memorial day program committee. The invocation and benediction were given by the Rev. E. C. Westhouse of this city. Musical numbers were presented

## THE BIGGEST STOCKHOLDER

The administration should do something to stop corporations from breaking up their financial statements so that this practice continues there will eventually seep through into the intelligence of the masses of the people a conviction and an understanding that will not turn on the music of "Happy Days" for the administration.

The last company to join in the effort of showing the people how they are being taxed to death is the American Crystal Sugar Company, an extensive manufacturer of beet sugar.

Last year this company operated at a profit. It made for its common stockholders \$2.33 a share. But it made more for the government. It paid in taxes nearly 2 million dollars or the equivalent of \$3.79 a share on its common stock. Thus the company served the patriotic purpose of picking up more for the government than it did for the thousands of people who have a stock interest in it.

And the beauty and the excellence of the plan lie in the ease with which the company collected from its customers a sales tax on its product for a government committed to the proposition that a sales tax is an instrument of the devil.

THE PACKED COURT IN VIENNA  
Herr Buerckel, entrusted by the Fuehrer as his personal agent in governing Austria, has just announced that he has dismissed from office the nine members of the Austrian supreme court and replaced them with dependable patriots whose morning prayers and evening farewells begin and end with "Heil! Hitler."

The item is worthy of attention. It shows how thoroughly the Nazis understand that tyranny can never be complete in any country where courts are independent. For tyranny not only finds outrage by way of threat and violence an indispensable adjunct to its system but it must shut off any possibilities that those outraged may appeal to judicial tribunals for either protection or redress. Moreover, every tyrant finds it convenient or expedient occasionally to resort to judicial tribunals for approval of acts or a separate condemnation of proposed victims.

The German judicial system that existed under the monarchy and the republic was markedly dissimilar to the American system in many particulars, and in some respects better. Men entered the judiciary in Germany selecting it as a career and thus were often better prepared by education than men elected or appointed in this country. The old constitution of Germany provided that no judge could be removed or transferred for other than legal reasons relating to his misconduct or without legal process. In other words, he was above the will of even the Kaiser and subject only to formal impeachment.

Fritz Kraus Kruger in his "Government of the German Empire," published just as the great war started, outlines the German judicial system as follows:

"The training of judges is the same all over the German empire. After a post-graduate course of at least three years in the department of jurisprudence in a German university the candidates must pass a rigid examination. They must receive practical training of three or four years in the different local offices and after passing a general examination of a practical nature they are appointed judges whenever a vacancy occurs."

The ruler of each German state appointed the judges within that state and the Kaiser appointed the members of the supreme court of the entire Reich. As a result as far as a judiciary as could possibly be created was secured. In respect to the appointment the situation parallels that in many of our states and in the nation for we have states that have no elective judges. Massachusetts among them, and it cannot be said that they do not give satisfaction for they bring forth great jurists. Justice Holmes having served on the supreme bench of Massachusetts before his appointment to the supreme court of the United States.

But there is a great deal of mopping up to be done in Austria, there are "80,000 Nazi heroes" to be placed, although these alleged heroes were fugitives from justice until Hitler took over the state.

In order to exalt those of his own clan the Fuehrer no doubt finds it necessary to pull down others.

And the Nazi experience with the German courts in trying the accused in the Reichstag fire has convinced the Ger-

man rulers that it were better to have judges who are more "understanding."

So Hitler has come to selecting Kluxer material.

## THE ARMY HORSE

America's famous First Cavalry in the military maneuvers that have recently taken place in Texas, and particularly in the rough hills along the Rio Grande, has proven that machines cannot supplant the horse in warfare.

It has been pleasant for military men and particularly the personnel of artillery brigades to picture themselves sailing blithely over the countryside putting their guns easily in position and stretching out at sundown with a cigarette and guitar instead of bedding horses with all the tiresome work required by army rules in the care of animals that they be kept in first class condition and Uncle Sam get his money's worth. But it just won't work. There is no place in the world where theories are punctured so swiftly as in the army because there is no institution perhaps as practical.

If a thing won't work in the army it must be discarded. Lone theories won't win battles. And winning battles is the business of the army.

Over in Spain Franco, too, just demonstrated the importance of horses when it became necessary to cross a difficult terrain in order to get to the sea, and almost every terrain can be made difficult by heavy rain. Horses could get through where machines bogged. That is what Franco just established. In addition he showed that he was a capable military leader because he foresaw the difficulty and was prepared with the horses.

Just as the good old tobacco spitting leatherneck with a rifle in his hand remains the heart of every army, and despite all the theories and all the stories of what can be accomplished by airplanes, so the horse, though not as important as the infantry, cannot be discarded as yet.

Major Schwein adds to the importance of the horse in a recent article he wrote for the Cavalry Journal. It is the Major's contention that had the German cavalry been used as it should have been instead of being reserved for the pomp and circumstance of parades the Germans would have won that first crucial battle of the Marne and captured Paris hands down. Certainly that first mad and seemingly unstoppable onrush of the German armies in 1914, halted as much by conditions of the terrain as by anything else, never again got under way in the west with all the impetuous fervor and energy that was brought to an end at the Marne. The Major concludes that not only the horse for the artillery but horse cavalry as well must still be used if an army is to be successful and "until mechanization possesses the cross-country, cross-stream capabilities of the horse."

This is all good to know. For if we are to have war or must have war or find it wise to support extensive armies even if they aren't used, the horse adds a dash and a color even if he does make a lot of work for the boys in uniform.

**GOLD IS WHERE YOU FIND IT**  
Down in an Indian burial mound in Kentucky was discovered not long ago the skeleton of what is described as a "prehistoric man," one who had been buried thousands of years ago.

Found with him were five axes of solid copper and over 600 large beads of the same metal.

Copper, to that prehistoric man, was the most valuable thing to come out of the earth. He probably had never seen gold and did not appreciate that the dependability of its price might make a steady influence in commercial transactions which demand such an influence in order that they be carried on unfervishly.

And yet this simple savage whose store of copper may draw a smile on the lips of modern man was actuated, according to his times and his knowledge, by the same sort of thought and purpose that motivates a great people in gathering together nearly 13 billion dollars worth of gold and burying it in the same state in which this prehistoric man was unearthed.

Who knows but what the loss of the 13 billions in gold might create no less a disturbance in this world of ours today than resulted with the burial of the five axes of solid copper and the 600 large beads so long ago?

**Opinions Of Others**

**OVER THE BOUNDING MAIN**  
"Let us unanimously recognize the fact that the Federal debt, whether it be twenty-five billion or forty billions, can only be paid if the nation obtains a vastly increased citizen income. I repeat that if this citizen income can be raised to eighty billion dollars a year, the National Government and the overwhelming majority of state and local governments will be 'out of the red'."

—Franklin D. Roosevelt, April 14, 1938.

As usual, the president doesn't say how. As usual, it looks as though the president is growing conservative. Why not adopt a plan that would take us out of the red at once? Why not show some vision, take the long view, and chart a definite course that would wipe out every cent of the Federal debt?

Let the government lend everybody in the country \$1,000,000. One of those no-interest loans, Pass legislation removing all government securities from the tax-exempt list. Then everybody could invest his million in government bonds. At a conservative 2 per cent, say, everybody would have an income of \$20,000 a year. With 120,000,000 people paying an income tax of around \$2000 a year, the government's annual revenue would be about \$240,000,000,000. Out of the red automatically!

How would the loans be repaid? How could the government pay interest on its bonds and get out of the red at one and the same time?

Don't ask silly questions, sailor, we're sailing sailing—sailing—Saturday Evening Post.

HERE is something exquisitely painful about the Tuesday after a double holiday that makes an ordinary Monday look bright and cheerful by comparison. . . . that's why your correspondent was dutifully picking this out on a day last week far removed from the after-effects of two days of freedom and over-exertion . . . the people who didn't drive too far probably golfed too much or fished too much or rowed too far or danced excessively or did something else in excess . . . this, of course, despite all warnings to desist . . . and probably the people who handed out the warnings didn't exactly expect them to be heeded . . . the typical American figures that the words of stern wisdom are always meant for the other guy anyway . . .

## STET DEPARTMENT

## "Believe It Or Not"

Should Stet write a poem, 'twould sure be a dandy. He would take to the Muse like a child takes to candy:

His theme would be perfect, his meter sublime, Each sentence a jewel and clawless each rhyme. Now when Stet sees a poem, it makes him quite ill.

"Such a waste of good paper," he's thinking; but still —

Should he once write a poem and see it in print,

He'd like it, I'm certain. Please, Stet, take a hint.

## Furthermore

Our poor, feeble poetry, Stet greets with a hiss, An undeniable privilege, by heck! But tell us, please, Stet, is it all poetry or just stuff like this,

That gives you a pain in the neck?

## THE LITTLE BUNDLE

It looks, Stet, as though the girls are ganging up on you.

This, of course, may mark the beginning of a new argument among the writers for this column of wit, wisdom, and stuff. At any rate, Stet likes the column without poetry, and very likely we will be hearing from him on the subject.

## A Verse for Today

## ULLABY FOR NANCY RUTH

It's sleepy time for little birds Close to their mother's breast. They hear her gentle singing words And drift away to rest.

The trees sing lullabies to them; The blossoms sway and send Their fragrance to the diadem Of sunbeams at day's end.

It's sleepy time for lambs that lie Near mother in the fold.

The quiet cattle dream near by.

The horses, tired and old,

Lie down to sleep the whole night through;

The dogs bay, and the hens Call to their chicks . . . . The pigeons coo;

The pigs stir in their pens.

It's sleepy time for Nancy Ruth When Nature settles down.

Her blue eyes mirror only Truth;

Her hair is yellow down.

The Lord Who keeps all little things Secure, sends angels fair

And beautiful, to shield with wings Our baby, sleeping there.

## Looking Backward

## 10 YEARS AGO

Tuesday, May 29, 1928

One hundred and ninety-six seniors of Appleton High school, the largest senior class ever to graduate from the school, were to receive diplomas at commencement exercises at Lawrence Memorial Chapel the following Thursday evening.

Four huge busses, each capable of seating 40 passengers, were received by the Wisconsin Michigan Power company late the previous afternoon and were to go into operation between Kaukauna, Appleton and Neenah-Menasha within a week. Each vehicle cost about \$12,000.

Lewis N. Alexander was to break ground Saturday, June 9, for the new \$300,000 Lawrence college gymnasium. President Henry M. Wisconsin told the student body in chapel the previous morning.

The Neenah-Menasha golf grounds were to be formally opened at 9 o'clock Wednesday morning when Gavin Young, Sr., president of the club, was to tee off the flag raising and taking of pictures, was to tee off the first ball on the new course after which the 240 members were to be at liberty to play.

## 25 YEARS AGO

Tuesday, June 3, 1913

The 7-year-old son of George Wenerove of the Third ward would have lost his life in a cistern yesterday had it not been for the timely assistance of his companion, Clyde McCabe, young son of Officer James McCabe of the local police force.

The Knights of Pythias were to hold a stag banquet the following Thursday evening at their hall in honor of H. K. Wambold, Milwaukee formerly of Appleton, who was to be presented with a Past Chancellor jewel.

The St. Joseph's society of Darboy held a meeting Sunday and elected John Hoelzel, Sr., and Jacob Ashauer delegates to the Catholic Society convention at Green Bay the following week.

A horse attached to a baggage wagon created considerable excitement the previous day in front of Ryan's art store on Appleton street. The horse had run away from its driver and was proceeding south at a fast pace when the reins in dropping to the ground wound around the hub of one of the front wheels throwing the animal to the ground with the wagon on top of it.

## 'MORE AND MORE DEMOCRACY'

## A Bystander In Washington

BY PRESTON GROVER  
Washington — Just as news of possible revolution in Mexico comes dribbling into the United States, the attention of the State Department and the Senate foreign relations committee is called to a section off the neutrality act that has a capacity to gum up operation of the "good neighbor" policy.

In 1928 President Coolidge went to Havana with all the pomp and fanfare that could be attached to (Grover Mr. Coolidge (and he wouldn't allow much.) There, a solemn covenant was drawn up among the American republics by which all agreed that if a revolution should break out in any one, the others would refuse to ship arms to the rebels. Arms would be shipped only to the government forces. Mexico signed it. So did the United States and most others.

The idea was to preserve peace and discourage any one nation from precipitating or aiding the revolution in the others.

But last spring, in its hasty effort to legislate an embargo against arms shipments to Spain, Congress enacted a neutrality measure providing that in event of a serious civil war in some foreign country, the United States would refuse to ship arms there. Much discretion is allowed the President to determine whether the civil war is dangerous to the peace and security of the United States. He is obliged to impose the embargo only if the shipment of arms threatens to involve the United States in the fray or to endanger its peace and security.

But if the civil war gets bad, he has to stop shipments of arms to both sides, rebels or government. And that, so authorities on foreign affairs here say, appears to be in conflict with the Havana treaty which pledged the nations to help each other suppress civil wars.

Of course a way out was provided each nation. If any nation decides the rebel outbreak is justified it may "recognize" the rebel group as a legitimate belligerent and so ship arms or not, as it chooses.

Now if a civil war should break out in Mexico the United States would be confronted at once with a double question:

Should it abide by the treaty and help out the Cardenals government? Or should it abide by the neutrality act and refuse aid to either side?

Picking The \* \* \* Wrong Horse  
A half dozen years after the Havana treaty was drawn up, Brazil had a revolution. In keeping with its agreement, the U. S. government, with Henry Stimson as Secretary of State, permitted arms to move to the government forces. By the time they reached there the rebels had won. They took over the shipment of arms intended for the other side.

Stimson was dubbed "Wrong Horse" Henry for presumably backing the wrong side. There are good sources here who say he knew the rebels would win but was determined to

## Kaukauna Joins In Celebration Of Memorial Day

Record Crowd Sees Parade; Rev. John Haen Is Speaker

Kaukauna — With the largest crowd in recent years thronging the parade route and gathering at Monument square for a program Kaukauna yesterday celebrated Memorial day. The celebration was under the joint direction of the American Legion and the Veterans of Foreign Wars, with Ed Ives and Joseph Promer co-chairmen.

A police escort led the procession from the Legion hall up Wisconsin avenue and right on Lawe street to Monument square. Color bearers of the local post and their auxiliaries with the national and post flags followed.

The firing squad of the military organizations came next, followed by the members of the two posts and their auxiliaries. The Sons of the American Legion state championship drum and bugle corps furnished martial music. Rotary Troop 20, Holy Cross Troop 31 and St. Mary's Troop 27, Boy Scouts of America, girl scouts and the Kaukauna High school band completed the array.

Fr. Haen Talks

At the square the Rev. John Haen, assistant pastor of St. Mary's Catholic church, gave the principal address. He described the inception of memorial day some 70 years ago as a day dedicated to the memory of those who died in the Civil war, and its later growth to include the dead of other conflicts.

"Memorial day is not a day of frivolity," Rev. Haen said. "It is one of prayer and recollection. It is not a show of war—it is a day of sorrow for those that lay down their lives that we might cease."

Assembly was played by buglers of the SOTAL at the square, and "America the Beautiful" by the high school band. The Women's Relief Corps and the Veterans of Foreign Wars Auxiliary gave brief memorial services.

Thirty seconds of silence for those who died in wars was followed by a firing squad salute, taps, and the playing of the Star Spangled Banner by the high school band.

The parade then reassembled and marched to the center of the Lawe street bridge, where a memorial service for deceased sailors was held. A salute was fired, a wreath thrown into the Fox river and taps sounded. The parade then marched to the Legion hall where the flag was lowered.

## 7 Will Graduate At Normal School

Class, Principal Will Make 3-Day Trip to Northern Michigan

Kaukauna — Seven students will graduate this year from Outagamie Rural Normal school, according to Principal Walter P. Hagman. All are practically certain to secure positions. Graduates are Blanche McIntyre and Ann Landreman, Kaukauna; Catherine Van Wyk, Seymour; Lucilla Malchow, Suring; Henrietta Schwalbach, Appleton route 5; Ferne Deering, West De Pere, route 1, and Florence Persohn, Brillion.

There will be no graduating exercises this year, but Principal Hagman and the members of the class will take a 3-day trip to northern Wisconsin and upper Michigan, leaving June 2 by auto. The school will close for the summer Saturday.

Students graduating this year have completed the 2-year course now required before they can get a teaching position. Formerly only one year of study was necessary. Students who entered school last fall must complete another year before they can teach. About 25 students finished their first year this month and most of these will be back next fall. With a new class of freshmen the school will have one of the largest enrolments in its history. With the new 2-year ruling in effect some of the schools which gave one year courses in this vicinity are now closing up, and it is expected that some of their first year students will come to Kaukauna to finish.

Kaukauna Gridders to Open Season Sept. 17

Kaukauna — Kaukauna High school's football team will open its season next year against Sheboygan North here on September 17, the official schedule released shows. It will be the first time the schools have met.

Other teams to be played are Neenah, Sept. 24; Clintonville, Oct. 7; New London, Oct. 14, all away from home; Shawano, Oct. 22; West De Pere, Oct. 29; Menasha, Nov. 5; St. Mary's of Menasha, Nov. 11, all at Kaukauna.

Begin Work on \$30,000 WPA Sidewalk Project

Kaukauna — Work on the \$30,000 WPA sidewalk, curb and gutter project was started on the north side this morning. Crews of 20 men each began pouring sidewalks on Black and Division streets.

## Mass of Detailed Work Will Accompany Staging Of Regatta at Kaukauna

Kaukauna — With the surveying of the course here by officials of the Wisconsin Boating association all arrangements for the conducting of the boat races here June 11 and 12, a feature of the Veterans of Foreign Wars water regatta, have been finished, according to Frank Mitchler, post commander. The course, all in full view from Riverside park, is a mile long.

Each race is given a 5-minute gun, a 1-minute gun, a starting gun and a finish gun. Mitchler said in describing how the contests would be conducted. At the 5-minute gun the hand on a huge clock, six feet in diameter, begins to go around. A red flag is also held up, indicating that the 5-minute gun has been shot off.

**Dip Flag To Start**  
At one minute before the start of the race, the minute hand starts up on the clock and a white flag is held aloft. All this time the boats will be milling around getting their positions for the start across the finish line. When the minute hand completes its round on the clock, the white flag is dipped, the gun is fired, and the race is on. At the

## Graduation Will Vacate 17 Posts on School Teams

Kaukauna — Seventeen positions on Kaukauna High school football, basketball and track teams will be vacated when the class of 1938 graduates on June 10. Football will lose six regulars, basketball three and track eight.

Coach Paul E. Little must still dig up several players. The freshman team this year, coached by Verl Foxgrov, full back, will be missing from the backfield. In the line Lee Lambie, George Hilsenberg, Floyd Hooyman and Carl Penderast leave an end, tackle, guard and center position open to next fall's aspirants.

Peterson and Hilsenberg were all-conference selections and Lambie was an all-conference selection on the second team.

In basketball three of the five regulars will be lost. They are Bill Peterson and Cliff Vanenhenen, forwards, and Lee Lambie guard.

Next year's five will be built around two freshmen, Bill Alger and Carl Giordana. Alger and Giordana also will be football veterans. Giordana quarterbacked last fall's eleven and Alger holding down an end position.

**8 On Track Team**

The track team will lose eight letter winners in Peterson, Verl Foxgrov, Carl Penderast, Ralph Schubring, Gerald Meyer, Robert Cooper, Lee Lambie and Andy Menter.

With all this loss of talent prospects for next year, especially in football, are good. Six pizzik regulars, George Note, Co-captains Bob Niesen and Leroy Frank, Bill Alger, Carl Giordana and Karl Kobussen

will be back. Sherman Powers, who last year alternated at the guard position, will capably fill Hilsenberg's spot.

## Large Crowd Attends Program Given in Honor of New Priest

Kimberly — A large crowd attended the program given by the children of the Holy Name school Sunday evening at the clubhouse in honor of the Rev. G. J. Van Nuland, newly ordained priest, who said his first mass at Kimberly Sunday.

The community band under the direction of Gordon Kotkosky, in the absence of Prof. M. J. Heynen, opened the program with the march, "Olympia Hippodrome." The Rev. C. B. Vanden Borne, pastor of Holy Name church, gave the address. He said that in the 31 years of the organization of the parish Father Van Nuland was the fifth priest to be ordained.

Graduation exercises for the eighth grade class of the parochial school and first communion for the small children will be held at the 8 o'clock mass. Eight graduates will receive their diplomas Sunday morning. Several selections were played by the band during the program.

Fathers Van Nuland and Vanden

Borne plan to motor to Washington to witness the ordination of Rev. Joseph Derkis, son of Mr. and Mrs. Anton Derkis, June 7. Father Derkis will say his first mass at Holy Name church on Sunday, June 12.

**Teams in Two Leagues To Perform This Week**

Neenah—Only one round of games will be played in the City and Senior softball leagues this week, but games which have been postponed because of rain probably will be played.

In the Senior Post-Crescent Lakeviews will meet the Legion Tuesday night, May 21, at the Green, and the Bantams will play Krueger Hardwars at Washington park. In the City circuit, the Lakeviews will clash with the Merchants at the Green Wednesday, June 1, while the Drahcm will play the Martens of Creamery at the high school, with the Commercial, Inc., meeting the Shell Oils at Washington park.

**Neenah Man Fined on Charge of Drunkenness**

Neenah—John Scerenski, 318 W. North Water street, pleaded guilty of drunkenness and was fined \$10 and costs with an alternative of 15 days in jail when arraigned this morning before Justice George C. Loehning. Neenah police arrested the defendant Saturday.

The Twin Cities office of the Appleton Post-Crescent for its editorial, circulation and advertising departments is located at 510 N. Commercial street and the telephone number is 4100. News items, copy or orders for advertising and orders for subscriptions may be left at the office or may be telephoned. This number also may be called before 7 o'clock in the evening for delivery of papers missed by carriers in Neenah or Menasha.

## Priest Urges Loyalty to Principles of Democracy

Neenah—Defining patriotism as "not a love for a vast country with mountains, valleys, farms and cities, but as an undying loyalty for the glorious principles of democracy," the Rev. Joseph Glueckstein, pastor of St. Margaret's Mary Catholic church, sounded the cause of the seventieth observance of Memorial day in his address Monday morning at Oak Hill cemetery.

The Memorial day speaker pointed out that it was because of these principles that the "homage of the nation's gratitude is being paid today." Declaring that these principles, framed by our forefathers, were of Christian thought and of high and solemn ideals, the priest said that "our soldiers and sailors, living and dead, fought only to save them."

Stating that the principles of our democracy are derivative of Christ's law, "Thou shall love the Lord Thy God and thy neighbor as thyself," Father Glueckstein called Christ the "greatest Patriot."

### Knoll Hurls Two Wins for Labels

#### Menasha Softball Team Defeats Kaukauna, Oshkosh Teams Sunday

Menasha—John "Smoky" Knoll pitched a double win for Menasha's Gold Label softball team Sunday, blanking Kaukauna 4 to 0 in a morning game at Kaukauna, and turning back the tough Hour Tavern team of Oshkosh 4 to 3 in an afternoon affair at the Seventh street diamond. The Labels remain unbeaten for the season, having won all of their six games.

Kuchelmeister and Branchford hurled creditable ball for the Kaws but the Labels bunched six hits for four runs and the ball game. Knoll gave up four hits and fanned seven. Sharing honors with Knoll was T. Buzza who played a bangup game at third base.

J. Vils, Kaukauna fielder was badly injured when Stepanski's spiked shot tore into the back of his hand, tearing away a part of his finger, as he dived into second base.

In the afternoon game, Harry Witkowski, former Menasha boy, brought his Hour Tavern gang to town but Knoll with very little rest sent them home on the short end of a 4-3 score.

"Ace" Bonnet pitched on even terms with Knoll, allowing six hits to Knoll's five. The effects of having already played a game in the morning began to show on the Label lads when in the fourth Oshkosh tallied two on a muffed fly ball, a walk an error and a hit, but in the fifth Manager Paulowski put Menasha back in the running when his sharp drive chased in the tying runs.

Then in the final inning the Labels ended the game in a hurry. Stutz smashed a double to center and on the first pitch to him West duplicated the feat with a game winning double.

**Stowe Funeral Will Be Held at Oshkosh**

Menasha—Funeral services for Gordon Stowe, 23 Oshkosh youth who was drowned in the Fox river below the Mill street dam May 21, will be held at 8:30 Wednesday morning at the Fiss and Bills Funeral home, Oshkosh, and at 9 o'clock at St. Mary's Catholic church. Burial will be in Riverside cemetery, Oshkosh.

The body was discovered Sunday afternoon by Ernest Wuthrich, route 2, Neenah, wedged between the piling and sway brace of the Soo Line bridge, more than half a mile downstream from the place where the accident occurred.

The body was removed from the water by Patrolman Peter Clark and Henry Scovronski, 140 River street, Oshkosh.

Members of the temporary committee include Mr. Sensenbrenner, Mr. Clough, Mr. Laemmrich, Mr. Hansen, Fred Schriber, T. D. Spalding, R. J. Fleweger, Mrs. Harry Sheerin, Mrs. Ira H. Clough, Mrs. Henry Wilpolt, Mrs. A. J. Ganzik, Mrs. Anna Fahrbach, Mrs. Anna Tratz, Mrs. Henry Hoks, Miss Rose Pack, Mrs. G. E. Forkin, Dorothy Pack, C. A. Loscher, Ted Sues, Jr., Harry Sheerin, Jr., Carl Heit, Jacob Liebl, William Hackstock and Herman Muelben.

**Rod and Gun Club Will Award Prizes Tonight**

Neenah—Winners in the Twin City Rod and Gun club's first membership campaign will be awarded prizes at the club's regular meeting at 7:30 Tuesday night at the city hall auditorium. The member who obtained the greatest number of memberships will be awarded a springer spaniel puppy, the grand prize.

An opportunity will be given local sportsmen to express their opinions on changes in fish and game regulations at the meeting, for a discussion on the questionnaire sent out by the state conservation department prior to the county committee meeting at Madison June 17 will be conducted.

**Library Has Display Of Travel Literature**

Menasha—Because summertime is also travel-time, a display of travel literature and books describing many favorite vacation spots has been prepared at Elisha D. Smith public library. Timetables and pamphlets concerning Bermuda, Hawaii, Alaska and many other places are included in the travel literature.

Some of the recommended travel books include "Let Me Show You Vermont" by Crane; "Kennebec, Cradle of America" by Coffin; "Mexico Around Me" by Max Miller; "Transgressor in the Tropics" by Farson and "Invitation to Travel" by Fish.

**RUBBISH WEDNESDAY**

Menasha—Rubbish will be collected in the third district Wednesday, according to the city health officer, H. O. Haugh. Second street and the area north up to Sixth street is included in the district.

**FALSE ALARM**

Neenah—Firemen Monday noon

answered a false alarm from the Neenah Hardwood Products corporation.

**Starts Jail Sentence On Charge of Vagrancy**

Menasha—Frank Petruski, 42, Green Bay, was sentenced to 15 days in Winnebago county jail by Justice of the Peace Arthur J. Ales Monday morning when arraigned on a charge of vagrancy. He was taken to Oshkosh this morning by Police Chief Alex Slomski. Petruski was arrested by Menasha police Saturday evening.

**FINED FOR SPEEDING**

Menasha—John Ostrowski, 22, 679 Appleton street, was fined \$5 and costs when arraigned on a charge of speeding on Racine street by Justice of the Peace Arthur J. Ales in justice court this morning. Ostrowski was arrested by Menasha police on Memorial day.

**COUNCIL TO MEET**

Neenah—The city council will hold its first meeting of the month at 7:30 Wednesday night at the city hall. Only routine business is scheduled.

**Be A Safe Driver**

JAPAN'S NEW STRONG MEN TO CONDUCT WAR

These three men have stepped into power in the Japanese cabinet, foreshadowing a new attempt to bring the undeclared war in China to an early conclusion. Lt. Gen. Seishiro Itagaki (left) became war minister; Gen. Kazushige Ugaki (center) is new foreign minister; and Seihin Ikeda (right) will be finance minister.

#### Bands Perform

The program at the cemetery opened with the selection, "The Star Spangled Banner," played by Neenah, Menasha and St. Mary High school bands. The Rev. W. P. Mortell, pastor of St. Patrick's Catholic church, gave the invocation and the bands led the audience in singing "America." The Legion quartet sang, and Vernon Ponto, Menasha High school recited "General Logan's Memorial Day Order." Howard Jacobson, Neenah High school, gave the Gettysburg address.

Mr. Sheerin, Neenah's lone surviving Civil war veteran, who was president of the day, gave introductory remarks at the opening of the services in which he stated, "I'm not going to leave you, boys, but this will be the last service in which I shall take part."

The aged veteran made a single

speech at the cemetery.

**Memorial Services**

The Memorial services at the cemetery followed the water services conducted by the Women's Relief corps at the east end of Main street, Menasha, and huge parade through Menasha and Neenah to the cemetery.

## F. E. Ballister Completes Half Century at Bank

Official of First National Rose From Office Boy To President

Neenah—F. E. Ballister, 409 E. Wisconsin avenue, who rose from office boy to president of the Neenah First National bank observed his fiftieth anniversary of association with the bank Saturday.

Mr. Ballister was employed by the bank as an office boy May 28, 1888 and since then he has filled every position through to the presidency.

Neenah and Menasha banks joined in presenting him with an engraved plaque signed by the officials of the four banks. The directors of the First National bank were entertained at a dinner at the C. A. Babcock home Saturday night when Mr. Ballister was presented with a gold plate on which the following inscription was engraved.

"On the fiftieth anniversary of his association with the First National Bank of Neenah, Wisconsin, this token of appreciation is presented to F. E. Ballister to commemorate fifty years of construction service to his depositors and stockholders, to his fellow citizens and the business public, in recognition of the fact that his untiring zeal and good judgment have been chiefly responsible for the personal strength and security of the bank of which he is president, as an expression of belief that the known soundness of this bank under his management has been a stabilizing influence through the years, not only in this community but to the region round about, to serve as enduring evidence of the esteem, confidence and friendship of his fellow directors."

Mr. Ballister received numerous telegrams and bouquets of flowers.

## John Knoll Pitches No-Hit, No Run Game as Gold Labels Beat Kronzers

### Clintonville Golf Team Will Perform At Ridgeway Course

Menasha—After pitching the Gold Label softball team to a double win on Sunday, John Knoll came back on Memorial day and hurled a no-hit, no-run game under the arc lights. Not a ball was hit to the outfield as the Labels sent down the Kronzer Grocers, 2 to 0. Knoll's claim for his record performance was nearly marred when an Oshkosh batter tapped a slow grounder down to Buzz, Label third sacker, who came in fast to field the ball. He made a wild scramble for the ball but it eluded him for an error. The Oshkosh team, eager for at least one hit, protested vigorously to the officials. The Oshkosh fans, however, voiced their approval on the decision and the official scorer put down the attempt as an error.

Knoll not only pitched a masterful game but singled twice and scored both runs for the Labels. He was driven in the second inning when Stutz doubled and in the fourth scored again when Stutz singled.

Manager Paulowski has scheduled his Labels for a few breathers on the Seventh street diamond during the course of the week while Knoll rests from his holiday efforts.

One of the members, Mrs. Harlow Perham, Oak street, is leaving the latter part of the week for Ohio to spend several weeks so the annual dinner bridge party is being held earlier this year.

General Ladies society of First Congregational church will meet for a 1 o'clock luncheon and meeting Wednesday in the church social hall as the final meeting until fall is held. Members of Group 2 will act as hostesses.

Mrs. Clifton Pierce was hostess to the Thimble club at a 1 o'clock luncheon at Hotel Menasha this day.

Group 2 of the Ladies society of First Congregational church will meet at 7:30 Wednesday evening at the church for a business session.

Party to Arrive at City Dock for Reception Wednesday Afternoon

Menasha—To the accompaniment of marching bands and flying colors, Menasha will welcome home the Lions club "Movie Queen" Wednesday afternoon, according to A. F. Landig, general chairman of the show to be staged June 9 and 10 at the high school auditorium.

The queen and her party are expected to arrive at the city dock at 4 o'clock tomorrow afternoon. She will be welcomed by an official reception committee and will be escorted to the city triangle where Mayor W. H. Jensen will present her with the key to the city and accord an official welcome.

The Menasha High school band has been invited to participate, along with boy scouts, merchant cars, organization cars and various other units combining to do the queen honor. An interesting feature of the parade will be the Butte des Morts school circus which showed here a few weeks ago.

Motion pictures will be taken of both participants and spectators, especially those congregating at the landing and at the triangle. They will be shown as part of the production on June 9 and 10. Movies also will be taken about the city, street shots, church shots, business shots, and climaxed next week with the attempted kidnaping of the queen.

The identity of the local girl playing the part of Mary Brown, the movie queen, has not been announced.

Rehearsals are progressing nightly for the stage part of the combination stage and screen show. There will be two evening performances, preceded by a matinee for children only on the afternoon of June 9. Ice cream will be included for every child attending the matinee.

CHILDREN FINGERPRINTED  
Pueblo, Colo.—More than 2,000 school children were fingerprinted recently in a campaign by the chamber of commerce to have everyone in the city thus recorded.

**NOISY CHILDREN**  
Pueblo, Colo.—The city willfully will rid neighborhoods of noisy dogs and cats but when it comes to children, it's every man for himself, the city commission has ruled.

The decision was in response to a complaint against the "dogs, cats and kids" that kept a night watchman awake in the daytime.

The dog catcher was instructed to make a trip through the neighborhood but to confine himself to dog and cat catching only.

The earlier note had been pinned to the door at the home of the boy's uncle, Wilson P. Cash, next door. The other note figuring in the case was given to a Negro to deliver to James Cash. It directed attention to the note at Wilson Cash's home but the Negro became frightened at the nocturnal visitor who gave it to him and failed to deliver it so it did not turn up until later. The F. B. I. agents took the three notes and their full text was not available.

**Watchman Gives Clue**

A state road department watchman provided a clue with a report that a green sedan traveling west at breakneck speed was forced by construction work on the road to slow up as it passed his station on an east-west highway, a mile and a half north of here shortly after the boy was missed.

The watchman saw several men and a small child which was crying loudly. Cash, 38 years old, a merchant and filling station owner, has lived here with his wife for the last five years. He owns a grocery store and two filling stations as well as the building from which the boy was stolen.

the remainder, which was due in January, 1938, was not paid to anyone because the office was vacant. The salary is \$3,000.

While the argument over Ekern's status was proceeding, he was officially the governor of the state, in the absence of Governor LaFollette, who left today for an eastern trip.

Attorney Rubin contended that his client has a legal right to challenge Ekern's appointment because the attorney general and Secretary of State Theodore Dammann had refused to act.

The proposed action is a quo warrant proceeding requiring Ekern to show by what right he holds office and since it is a civil suit the court called for arguments on the right of Martin to maintain it.

Justices pointed to the rules of law that quo warrant proceedings can be brought only by a person who has a personal interest.

Attorney Rubin maintained that the appointment of a lieutenant governor to fill an office normally filled by election presents question of "great public interest" and that Martin has legal power to question the appointment of Ekern since responsible state officials have refused to do so.

**No Charge of Waste**

Attorney Hoyt claimed that Martin has no personal interest in the case.

He said there was no charge of a waste of public funds and that Martin was acting solely as a proposed "champion of the rights of the people."

The court retired for half an hour to consider whether it should take jurisdiction and upon failing to reach an agreement announced it would hear further arguments.

Attorneys on both sides stipulated that the issue of Ekern's residence—he maintains law offices in both Madison and Chicago—would be struck from the complaint.

Chief Justice Marvin B. Rosenberry asked attorneys to submit briefs by June 6.

Zabel maintained Ekern's appointment was illegal because the governor had no inherent right to make the appointment and because there was no vacancy.

**FSA Studies Proposal Of Building Trades Body**

Washington—(P)—The farm security administration reported it had under consideration a proposal of the Milwaukee Building Trades Council for establishment of a union-sponsored non-profit cooperative to finance construction of 178 new homes at Greendale, resettlement project near Milwaukee.

The proposal is one of a number for use of about 3,000 surplus acres in the Greendale site, the FSA report said. Rental rates and other details will be considered before any decision is reached, it explained.

The present development, with 572 homes, covers about 400 acres. Utility and school facilities are ample for expansion of the village by about three times, or to 1,500 homes, the FSA said.

overrule in election

Grantsburg School Board

Grantsburg, Wis. — (P)—Taxpayers of Grantsburg looked to their school board today for the next move after they had voted informally Saturday 160 to 156 to overrule the board and to have E. J. Adams rehired as principal of the high school.

The proposal is one of a number for use of about 3,000 surplus acres in the Greendale site, the FSA report said. Rental rates and other details will be considered before any decision is reached, it explained.

The present development, with 572 homes, covers about 400 acres. Utility and school facilities are ample for expansion of the village by about three times, or to 1,500 homes, the FSA said.

## Wedding Gowns This Year Vary in Style but White Is Still Popular Color

BY VIOLA HELLERMANN

THIS year's June bride, if she follows the vogue, probably will march to the altar in a skirt as wide as the church aisle, a gown of net, tulle or marquise, and a short veil that will be like a fluttering mist around her head.

The season's styles are definitely demure and youthful, and the material used is almost always sheer, although a few fashionable spring brides have clung to sophisticated styles.

Dressmakers who have gowned some of the year's most famous brides say that they never knew a season when so many tried to be different. White or ivory gowns and veils are still preferred, the nation over, and brides of Appleton and the vicinity, the local shops say, ask for white almost exclusively, but news from the fashion centers says that a number of June brides will walk to the altar in gowns of petal

pink or pale heaven blue. A Boston bride chose mist gray tulle for her bridal gown and dressed her attendants in vivid American beauty fauille.

All white weddings continue to be some of the most beautiful. One Appleton shop recently displayed the gowns for such a wedding in its show window. The bride's dress and those of her attendants were made identically and the same white sheer material, the only difference being in the color of the delicate spring blossoms at the point of the V-neckline and in the fact that the bride's dress had long sleeves, the attendants' short.

**All White Wedding**

An all white wedding suggested by one of the fashion magazines for a country or garden wedding has both the bride and her attendants wearing cotton, the bride a full-skirted dress and bolero of white cotton lace, a white of veil and a bouquet of white stock from the garden. Her bridesmaids wear white pique dresses.

Warren Pershing's bride selected heaven blue satin frocks and apple blossom bouquets for her bridesmaids in contrast to her own ivory satin gown, and one of the season's southern brides, wearing white, had her attendants gowned in frocks which shaded from palest pink to deep rose.

A recent Milwaukee bride who wore a simple net and satin gown and a cap of fragrant gardenias put her maid of honor in a hoop-skirted colonial gown of parchment net, its skirt a series of ruffles dotted with nosegays of rosesbuds and forget-me-nots. Narrow blue and dusty pink velvet ribbons laced the back of her shepherdess hat of parchment net, topped with tiny blue forget-me-nots. In her hands, gloved in dusty pink suede, she held a colonial bouquet.

Bouquets, according to fashion reports from New York, are not so large this year, and almost no foliage is used. One recent eastern bride carried a bouquet of parchment roses rimmed with iris petals, another a white tulle fan covered with orange blossoms and a third a bouquet of lilacs and orchids fringed with tulle.

Instead of bouquets, bridesmaids can carry parasols, or baskets laden with flowers, or handfuls of flowers hanging from their arms with streamers, as the attendants at a fashionable Appleton wedding did last fall.

It is obvious there will be greater variety in accessories and attendants' costumes as wedding processions move down flower-banked aisles this June, but most of this year's brides will strive for one result in their own wedding gowns—an effect of demureness and youth.

SHOWS TREND IN BRIDAL ATTIRE

Indicative of this year's trend in bridal attire is this sheer white silk marquise, designed with a demure high-necked bodice and a long train trimmed with 80 yards of ruffling. An old fashioned bouquet reflects both the spirit of the frock and the 1938 fashion in bridal flowers.

## 20th Century Audubon Records Songs of Birds

Ithaca, N. Y. — The life of Albert R. Brand is a lyric.

He quit the stock market in 1923, before the big tumble. He retired at 39. And for 10 years he has been capturing bird songs.

The former stock broker has become one of the foremost authorities on the songs and calls of birds. In capturing those calls and songs on phonograph records, he is an ornithological pioneer. Brand started in the financial game at 15 as a banking house employee. He was so busy for the next 24 years

field of ornithology. He went to Cornell university to study with Prof. Arthur A. Allen and ran into an obstacle that made him a pioneer.

Desiring to master bird calls quickly in order to better identify the birds, he looked for phonographic recordings to speed his work but could find only a few mediocre human imitations.

By 1931 he had perfected a machine that would record bird voices. The results were not the best but they interested the Cornell engineering department. Through efforts of Dr. Paul Kellogg and others new apparatus was built.

His Library Grows

With his new equipment, which records the sounds on film, he has hit the bird song trail in the fields, marshes, mountains and forests of state after state. His sound library now includes more than 300 species, ranging from the most common to the rarest of birds.

Among the wax records to which the sounds are transferred from the film are calls of the rare ivory-billed woodpeckers, sandhill cranes, limpkins, trumpeter swans, eagles, Kirtland's warbler, Leach's petrel and others.

In his research and study, Brand has written two books, "Songs of

Flambeau Begins Its Summer Schedule to Northern Wisconsin

The Flambeau, Chicago and North Western special summer train, began operation over Memorial day weekend with 22 cars in two sections southbound yesterday. The fast passenger train stops at the Spencer street station in Appleton.

The next two weekends, the train will travel north on June 3 and 4 and June 10 and 11 and will travel south on June 5 and June 12. Beginning June 17, the train will start on a daily schedule which runs through Sept. 3.

The train leaves Chicago at 12:05 p. m. and arrives at the Spencer street station at 4:02 p. m., getting into Watersmeet at 9:15 p. m. On the southbound trip, the special pulls out of Watersmeet at 1:45 p. m., arrives at Spencer street station at 6:42 p. m. and arrives at Chicago at 10:45 p. m.

### Flashes of Life

By the Associated Press  
Richmond, Va. — A guest at the Country Club of Virginia surveyed the 152-yard par-3 bridge hole, and asked Caddy Bobby Rogers' advice about the proper club.

"A No. 6, sir," Bobby replied promptly.

The guest measured the stiff wind and said he couldn't get home with the No. 6. Bobby insisted.

"Well, if you think so, let's see you hit one to the green."

Bobby scored a neat hole in one.

### At Home

Portland, Ore. — Detectives investigating a reported burglary in a residence window screen removed. Peeping in, they saw a man in bed.

Cornered, the man awoke and protested it was his house, that he had lost his keys and his family was away. The officers took his word after they found he is Detective M. A. McMeekin.

Utility court appeals on such issues have caused many delays in acquisition cases.

## Suspect May be Taken to Chilton

**Sheriff Jensen Seeks Custody of Youth Who Confessed Blowing Safe**

Chilton—Sheriff Gerhard Jensen of Calumet county, today stated he would go to Lancaster Wednesday to try to secure the removal to Chilton for trial of Clifford Hatcher, now held at Lancaster after admitting a number of burglaries in Wisconsin and Minnesota.

Sheriff Joseph Greer of Grant county said that Hatcher admitted blowing the safe of the Brillion Elevator company last March, when \$200 was stolen.

State crime bureau agents, who arrested Hatcher at Winona, Minn., three weeks ago, stated that he has confessed 24 safe robberies and store burglaries in Wisconsin. In Hatcher's automobile when he was arrested May 7, police said, was a complete burglary tool outfit, as well as a loaded pistol and rifle.

Whether Sheriff Jensen will obtain custody of Hatcher is doubtful. Winona turned Hatcher over to Sheriff Joseph Greer, who accuses him of being the "night-riper of the Kickapoo valley," looter of stores and elevators throughout southwestern Wisconsin for the last two years. Greer said Hatcher has confessed burglaries at Camp Douglas, Highland, Westby, Wyocena, Soldier's Grove, DeForest, Fennimore and Marion.

### Split Hunting Season Is Impossible, Duffy Told

Washington—(P)—W. C. Henderson, acting chief of the biological survey, notified Senator Duffy (D. Wis.) today it would be impossible to establish a split hunting season in Wisconsin as urged by hunting clubs.

Duffy submitted to the survey petitions requesting the season be divided to provide ample hunting seasons for water fowl and upland game fowl.

Henderson said, however, it might be possible to amend the regulations to have the open season arranged "so as to provide equal opportunity" for all the hunters of the state.

### Four Counties Take Advantage of Drought Relief Funds in State

Madison—(P)—Only four counties took advantage of the \$1,000,000 made available by the 1937 legislature for drought relief loans. Gordon W. Gunderson, head, of the Wisconsin Farm and Home Credit administration, said today.

The counties are Florence, Green Lake, LaCrosse and Shawano. The first two borrowed \$5,000 each. LaCrosse and Shawano each obtained loans of \$10,000, making a total of \$30,000.

Half of this amount is to be paid back by the borrowing counties.

Gunderson said the probable reason more counties did not take advantage of the loan system was that unpaid balances could be reclaimed out of local allotments from state liquor taxes.

Under the law the money was to be turned over directly to counties, which in turn could lend it to individual farmers without interest until the loans were to be repaid to the state in equal installments June 1, 1938 and June 1, 1939.

### FOUR LANGUAGES

London—(P)—The British Broadcasting Company's orchestra, which will play a series of concerts under Toscanini's direction this summer, is getting ready to take orders in three different languages besides English.

Toscanini, it is said, when angry, invariably resorts to Italian. One of his most frequent expressions is "cantare cantare" — Italian for "sing, sing." He always uses the German "bitte" for "please," and instead of "good" he says the French "bon."

Madison—(P)—Hans F. Wenthur, Milwaukee, president, and all other officers of the Southern Wisconsin district of the Walther league were reelected at the Nineteenth annual convention here yesterday. Other officers, all of Milwaukee, are Oliver Heine, vice president; Evelyn Brooks, secretary, and Walter Barkow, treasurer.

## Sousa of Today Is Conductor of Dance Orchestra

John Phillip Sousa, III, Is Graduate of Princeton

Palm Beach — (P)—Now John Phillip Sousa is leading a dance orchestra. This one is the third John Phillip and he's a grandson of the famous bandmaster and composer. He's 24, but looks younger. His post as conductor of a hotel orchestra is his first real job since he was graduated from Princeton in 1936.

For a while he worked in the script department of a Hollywood studio, then in an NBC broadcasting studio, and in a New York, starting as messenger.

**Fool Errands**

"I didn't mind going on all sorts of fool errands for the artists," he says, "but after all—there is a limit. I had to buy and deliver a big chocolate cake for the birthday parties of one of the stars, and I didn't get a bite of it—then the sound effects department had a dozen powder puffs. To ask a chap to walk up to a counter and buy a dozen powder puffs—but the show must go on."

"Later I did some broadcasting.

"My cousin was manager of the studio, but I got my job there entirely on my own."

**Wants To Be A Writer**

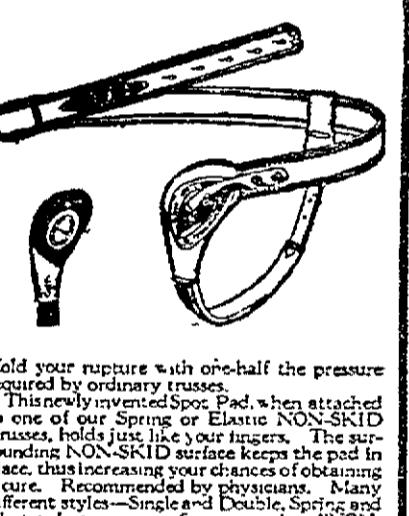

Sousa majored in English at Princeton, and hopes to write. He also likes art—watercolors, and has made a study of orchestration, though he plays no instrument except the drums. He has transcribed several of his grandfather's marches into dance rhythms. His favorites are the "Washington Post March" and "Stars and Stripes Forever," but he won't try to do those in swing time.

Sousa, who says his name is of Portuguese origin, is a movie enthusiast. He isn't married, "isn't engaged yet."

## County Has Only 2 Traffic Crashes On Memorial Day

No Injuries Reported Despite Heavy Travel On Highways

Only two traffic accidents, one in Medina and the other in Appleton, were reported in Outagamie county Memorial day, although traffic was just as heavy if not heavier than on Memorial day a year ago. No one was hurt in the accidents.

Charles Steidl, captain of the county motorcycle squad, keeping a check on south-bound cars on Highway 45 at Greenville about 3 o'clock yesterday afternoon, said that 137 cars were counted in a 15-minute period. Taking another 15-minute check at the same place about 4:30, the traffic officer counted 170 cars going south.

### Traffic Heavy on 45

Motorists away for the weekend evidently began their home trips early, and as a result serious congestion on Highway 45 was eliminated, Steidl said. County Motorcycle Officer Jack Frenzel said that traffic on Highway 45 continued to be heavy throughout the day and lessened after 10 o'clock last night. He said it appeared that traffic on the highway was heavier than on any other day in the last two or three years.

The only accident reported in Appleton yesterday occurred shortly before 1 o'clock in the afternoon. William Welsh, 50, Batavia, Ill., was going north on Drew street and turned to go east on Pacific when the machine went out of control and crashed into a telephone pole, breaking it off, according to police. Welsh was unhurt but the front end of his machine was badly damaged.

A car being backed from a drive way by Miss Irene Wolfrath, route 1, Appleton, and another being driven by Charles McCandless, 813 Roosevelt street, Menasha, were involved in a minor collision at Medina yesterday afternoon, according to Motorcycle Officer Frenzel. A fender on the McCandless machine was damaged.

**Autos Collide**  
Automobiles driven by Harvey Volkman, 22, Waupun, and Miss Ione Karnes, 20, Milwaukee, collided at 4 o'clock Monday afternoon at the intersections of Highway 41 and 45 near Gillingham corners, near Neenah. Both cars were traveling south on Highway 41. The rear of the Volkman machine and the front of the Karnes car were damaged.

A truck driven by W. Schilhabel, 607 N. Division street, Appleton, and a car driven by Mrs. A. C. Haselow, 339 Ninth street, Neenah, collided at 9:30 Saturday morning at Commercial street and Wisconsin avenue, Neenah. Both cars were traveling south on Commercial street. Police were told that Mrs. Haselow stopped for the traffic light. The rear of the Haselow car and the front of the truck were damaged.

**Appleton Business Men To Inspect Neenah Mill**  
About 115 Appleton business men will inspect the Lakeview mill of the Kimberly-Clark Paper corporation from 12 to 2 o'clock Thursday afternoon at Neenah, according to Kenneth Corbett, secretary of the Appleton Chamber of Commerce. Reservations for the tour have been closed.

A similar group of business men last Thursday took time off to make a tour of inspection. A luncheon will be held Thursday at which S. F. Shattuck, vice president of the corporation, is expected to speak.

**Street Line Paints on Test at Intersection**  
Traffic and parking lines were painted at the intersection of College avenue and Oneida street this morning to test the durability of several kinds of paint and to check future policy in painting lines on Appleton streets, according to Alderman Steinhauer, chairman of the traffic committee. Curbs at the four corners were painted to indicate no parking as well as pedestrian lanes and safety zones.

"Hey, Jack, did ya hear about Jimmy? Gosh, remember how last year he was afraid to go anywhere near the water? Well, he learned how to swim this summer in only three weeks at the swimmin' school in the 'Y.' Boy, and can he go?" Youthful exclamations like the one above probably will be heard in neighborhoods throughout Appleton this summer after the Post-Crescent-Y. M. C. A. swimming school is ended.

The school, which will run from next Monday, June 6, to June 25, is open to all boys and girls in the city from nine to 17 years of age who can't swim. There will be two cardinal aims at the school, to teach them how to swim and to conduct men and friends looking on.

### Police Station Move To Be Discussed by Commission, Council

A proposal to move the Appleton police department into the water department building on Walnut street and to move the water office into Lincoln school when the building is remodeled for a city hall will be discussed at a meeting of water commissioners and the public building and grounds committee of the city council this afternoon in city hall.

Alderman Steinhauer proposed the double move last fall to solve the problem of housing the police department without constructing a new building. The proposal gained followers in the last few weeks when it was discovered that the cell block of the police station could not be housed in Lincoln school unless that part of the building was made fire proof from the basement to the roof.

### Rain Predicted For Wednesday

Temperature Rises to 78 at Noon Today Despite Clouds

Overcast skies which greeted residents of Appleton and vicinity this morning were dispelled at intervals when the sun peeked through but the outlook was anything but cheery with the weatherman's prediction of possible showers Wednesday.

Despite the dull clouds which hovered menacingly over this region throughout the day, the temperature rose to 78 at noon, according to the thermometer at the roof of the Post-Crescent building.

Memorial day vacationists were favored with ideal summer weather yesterday which encouraged golf, tennis, fishing and other outdoor sports. The temperature rose to 80 degrees at 4 o'clock Monday afternoon and reached a low point of 58 degrees at 2 o'clock this morning, according to records at the power plant of the Wisconsin Michigan Power company for the 24 hours preceding 9 o'clock this morning.

Highest and lowest temperatures reported in the nation by the Associated Press were Phoenix with 100 and Lander and Yellowstone with 40 yesterday.

### Committee Will Study Prices on New Trucks

Bids on two or three trucks for the street department will be considered at a meeting of the street and bridge committee at 10 o'clock Saturday morning in city hall. Last Friday, the committee met with salesmen from the various companies offering bids and heard them describe the various machines. The committee also will study bids for various street department supplies.

### Seeking Suitable Site For Coast Guard Station

Ashland — (P) — Commander A. F. Glaz of the United States Coast Guard, Green Bay, was in the Chequamegon bay region today looking for a suitable site for a permanent coast guard station among the Apostle islands. Construction of the station was authorized by congress in 1936. Madeline island, largest of the group, has been suggested as a logical site.

"every advance made in that war could have been attained with peaceful methods."

To keep faith with the war dead and to make their purposes realized, America must "conduct her foreign affairs intelligently" and Americans must "live their national and individual lives in accordance with those soldiers' ideals," he said.

Appleton's service at Riverside cemetery climaxed a long parade of military, patriotic, and fraternal organizations which started at W. College and Walnut street about 9 o'clock yesterday morning.

Clear Skies

With sunshine and blue skies overhead, the procession was witnessed by thousands of residents of the city and vicinity who jammed sidewalks on College avenue and then drove to the cemetery to attend the ceremonies.

Survivors are the widow, one daughter, Mrs. Margaret Metz, Milwaukee; three sons, William, Charles and Leo, Shiocton; seven grandchildren and three great grandchildren; one sister, Mrs. Gust Stewart, Oshkosh and one brother, John Kling, Hortonville. The funeral will be held Friday afternoon with services at 1:30 at the home of his son, William, and at 2 o'clock at the Lutheran church at Shiocton with the Rev. Louis Mielke in charge. Burial will take place in Union cemetery at Hortonville.

JACOB NICKEL

Jacob Nickel, 88, Seymour, died at his home early Sunday evening after an illness of several months. Mr. Nickel was born Dec. 7, 1849, at Germantown, Wis., and came to Seymour when a young man. He moved to a farm in the town of Seymour and lived there for 30 years, returning to Seymour 28 years ago. He was a member of the Evangelical church at Seymour for more than 70 years.

Surviving are the widow; two sons, Edward, Green Bay; Philip, town of Osborne; one daughter, Mrs. Fred Strong, Eagle River; two brothers, William, Menomonie Falls; Henry, Kansas; 13 grandchildren; and 7 great grandchildren.

Funeral services will be conducted at 2 o'clock Wednesday afternoon at Muehl Funeral home at Seymour and at 2:30 at Evangelical church by the Rev. H. A. Bernhardi. Burial will be in the Seymour cemetery.

Post Colors

Erik L. Madison, program chairman, opened the cemetery services and members of Company D then posted colors. The 120th Field Artillery band played "Star Spangled Banner" and Mayor Goodland was introduced.

Richard Arens, of the SOTAL, recited "Logan's Order No. 11," and Dr. Harry C. Culver of First Methodist church gave invocation. The Appleton High school choir sang and Dexter Wolfe, Appleton High school honor student, gave the "Gettysburg Address".

Charles Gosh, 98-year-old Civil war veteran, was introduced at the ceremonies. Mr. Gosh enlisted in the war in 1863 and was with General Butler throughout the entire conflict.

Following the G. A. R. tribute, Dr. Culver gave benediction. Company D fired a rifle salute, and "Taps" were sounded by the 120th Field Artillery trumpeters.

WILLIAM STEEDE

William Steede, 61, Shiocton, died at his home at 4:45 Sunday afternoon after an illness of a year and a half. Mr. Steede was born May 28, 1877, in Pennsylvania.

Survivors are the widow; one daughter, Mrs. Frank Connell, Milwaukee; two sons, Garrison, New London; Desmond, Shiocton; three brothers, Bert, Gwynn, Mich.; Victor, Marquette; Myron, Negauke, Mich., and nine grandchildren.

## New Pastor Will Arrive on Friday

Rev. Harold P. Rekstadt To Conduct Services

Sunday

Royalton — The Rev. Harold P. Rekstadt of Huntley, Ill., will begin his pastorate at the Congregational church at New London and at Royalton on Sunday. He will arrive at New London with his wife and three children on Friday. Mr. Rekstadt has been the pastor of the First Congregational church at Huntley the last two years, and for three years prior to that was pastor of the United church of Irasburg, Vt., where he was ordained to the ministry. He is a graduate of St. Olaf College, has had training at the Andover Newton Theological school and Harvard Divinity school, Cambridge, Mass. During his pastorate at Huntley, he attended the Chicago Theological Seminary where he received his degree this June.

The Congregational Sunday school teachers are making plans for Children's day exercises to be held Sunday morning, June 12.

Hobart Domestic club will meet with Mrs. Carroll Ritchie on Friday. A new fence has been put around the Hobart cemetery and a road donated by Mrs. Henrietta Wilcox on the north side enabled people to drive in one gate and out the other. The entire cemetery has been raked and mowed.

Dr. Thomas Kepler of Appleton, who has been filling the pulpit in the Congregational church here the last ten weeks, preached the Memorial sermon on Sunday morning. He stated that the World War had cost this country billions of dollars, to say nothing of the lives lost and men maimed for life. If the soldiers who had given their lives in this great conflict were to march by, I abreast, it would take 48 days to pass a certain point, he declared.

There were in 1917-1918, 4,000 conscientious objectors to war and now in France alone there are 132,000 conscientious objectors. He stated that if this country and Great Britain were to sign a pact not to furnish supplies to belligerent nations war could not be carried on for any length of time by other nations.

### Hortonville Men at Indianapolis Races

Hortonville — Vincent Freiburger, Sylvester Freiburger and Victor, Gerald and Clemence Gitter motored to Indianapolis Sunday to attend the Memorial day automobile races in that city.

Lucille Becker of Hortonville returned to California with her brother, Kermit, Thursday. Kermit spent two weeks visiting at the home of his parents, Mr. and Mrs. H. Becker. Lucille will spend her vacation in the west with her brother.

Mr. and Mrs. Arthur Remmel of Milwaukee were weekend guests at the home of Mrs. Remmel's parents, Mr. and Mrs. Christ Meshke.

Mrs. William Gulbransen, Mrs. E. Rasmussen, Mrs. R. Hermann, Mrs. F. Chaveron, Miss June Rasmussen, Miss Lois Hermann and Miss Lucy Lewski of Racine spent the weekend at Poygan lake. They were guests Monday at the home of Mr. and Mrs. D. A. Mathewson, Hortonville. Mrs. Gulbransen and Mrs. Mathewson are sisters.

Mr. and Mrs. Francis Ritger and son of Madison were weekend guests at the home of Raymond and Anna Ritger.

Mr. and Mrs. Dale Farmer and two daughters of Chicago, former Hortonville residents, spent the weekend with relatives and friends in the village.

Mr. and Mrs. H. E. Thorpe and two children of Algoma were guests Sunday at the home of Mrs. Thorpe's parents, Mr. and Mrs. Roy Hough.

A daughter was born Saturday afternoon to Mr. and Mrs. Victor Schmidt, Hortonville, at their home.

A son was born Saturday afternoon to Mr. and Mrs. Sylvester Vogerst, town of Liberty, at the Community hospital, New London.

Community Picnic Held At Shiocton Schoolhouse

Shiocton — Shiocton State Grade school closed Friday with a community picnic at the schoolhouse. The eighth grade graduates include Warren Andrews, Nettie Lou Brooker, Edwin Beyer, Robert Beyer, Sylvester Hanson, Evelyn Kaiser, Jeanette Miller, Lorraine Moede, Agnes Rueden, Phyllis Jean Schwall, Delores Vanderhoof and Joyce Van Straten.

The class, accompanied by Woodroe Williams, principal of the grades, will spend Thursday at Green Bay to visit the Reformatory, Krafts Cheese company and other places of interest.

George Kling who was taken ill Friday evening, was taken to the community hospital, New London. Harold Kling, son of Mr. and Mrs. William Kling, a student at the Military academy at Lake Geneva was called home, because of his grandfather's illness.

School Equipment to be Moved to New Building

Equipment and books at Appleton High school will be moved to the new senior building as soon as the school closes for the summer. Preparations to move have been going on for the last two weeks. Moving of books and personal property will be supervised by the principal and the various teachers.

Appleton High School

Is on Accredited List

Appleton High school has been placed on the accredited list of the North Central Association of Colleges and Secondary Schools again this year, according to H. H. Heble, principal. This is the thirty-fourth consecutive year Appleton High school has received that honor.

## Bidding Should be Kept Open

BY ELY CULBERTSON

We all know the disappointed feeling that comes from hearing partner respond to our opening one bid with an unencouraging and unenlightening no trump. It is the one response we dread, next to the pass. But if our hand is either a "minny," or not much better, at least we have no problem of rebidding. With balanced distribution we simply pass; with unbalanced distribution we rebid the first named suit or mention another lower ranking suit. What should be done, however, by the opening bidder who holds considerably better than minimum is not too clear to most players. Let us carefully analyze the following hand:

South, dealer.

Both sides vulnerable.

NORTH	
♦ A 8 5 3	♦ Q 9 4
♦ J 8 5	♦ K 7 3 2
WEST	
♦ K 4	♦ A 6 2
♦ A 7 5 2	♦ K 8 3
♦ 9 6 3 2	♦ Q 10 7 4
EAST	
♦ 10 8 4	♦ 9 6 5
SOUTH	
♦ Q J 10 9 7	
♦ J 10 6	
♦ A K	
♦ A Q J	

The bidding:  
South West North East  
1 spade Pass 1 no trump Pass

Before we can decide the proper rebid, if any, by South, we must count out honor tricks and appraise our total taking potentiality. We find that we have four and one-half honor tricks, counting plus values, and this immediately leads us to the conclusion that we should not pass. Partner's bidding shows one minimum, so we have a minimum of one honor trick. If that is the extent of his holding we probably cannot make game, but he might hold as much as two honor tricks. There is only one way we can find out, and that is by keeping the bidding open. Not only that, but we must keep it open in such a way as to tell partner our hope and aim. If we merely rebid our spade suit, partner, even if he holds one and one-half honor tricks, will not be persuaded to indicate that fact. It is up to us, then, to say clearly to partner: "We have heard you make a no trump response and realize that you haven't a great deal. But we are much stronger than our opening bid signified. Hence, if you hold better than a minimum no trump response, please go to game."

The rebid that conveys this message is a raise of one no trump. Not a raise all the way to game, which would leave nothing to partner's discretion, but a single raise.

With the hand actually held by North, he would be ill advised to make another bid. His bare king, queen, and Jack were necessary to his initial response and, even though he may consider the Jack an extra value, such a lowly card cannot justify one full bid. It will be noted that, even though the club suit breaks 3-3, and though the defenders' best suits, hearts and diamonds, also break evenly, North-South have not the remotest play for three no trump against either a heart or diamond opening.

To return to South's rebid, a single raise of a one no trump take-out (such as: opener, one spade; responder, one no trump; opener, two no trump) shows four and one-half honor tricks, with balanced distribution, including some strength (probably a stopper in every suit). With only four honor tricks the opener must have strong fillers in order to raise the no trump. He may have a rebiddable spade suit, or a second bidable suit, yet may properly raise the no trump because his hand is too strong for a mere suit rebid or a non-jump bid in a new suit.

To refer to North's correct procedure after the no trump raise, he should hold at least one plus honor trick to go to game. Thus, it will be seen that if North's hand were improved by so much as the exchange of the diamond queen for the diamond Jack he would be justified in bidding game. Incidentally, in that case, game would be a laydown except against a heart lead, which would be just twice as much chance as North-South have in the actual layout.

## Old Gardener Says:

Moles do much less damage than is commonly supposed. For the most part, they live on worms and insects, many of them pests which are injurious to lawns. By eliminating these pests, the moles are actually doing a service to the gardener. Yet they are likely to make runs which are used by field mice, and these mice may cause a serious loss in bulb beds. When moles invade bulb plantings, therefore, it is best to try trapping them, although the use of materials which the rodents dislike is the safest plan.

## Take Your Sunshine Gradually

BY ELSIE PIERCE

Occasionally someone who should know better makes a mistake which proves that "human flesh may err." Someone very close to me went off on a week-end holiday recently and came back with such a bad dose of sun and windburn that I want to caution every reader to begin immediately to guard against overexposure.

The subject of our story protests that the sun was not strong, that she did not expose her face for long and that for two days afterward she merely thought she had an ordinary case of slight sunburn. Then her forehead became swollen, her eyes so puffy all around that they looked like wee slits, her nose was swollen too and her lips broke out in a dozen places. In fact, they were so badly infected that she had to have the little blisters lanced by her physician. It took fully two weeks for them to heal and in the meantime she was, as she herself puts it "a sorry sight."

## Can't Be Too Cautious

One can't be too cautious. There is no harm in erring on the conservative side. Take your sunshine in small doses. Even if the sun does not seem strong — beware. Even if you have never had a tendency to burn before, take care to apply cream and stay in the shade. Ten minutes is all the exposure one should be permitted the first time; fifteen minutes the next; and so on. Very often, too, the mild breezes of late spring or early summer are as beauty destroying as winter winds. A combination of sun and windburn can be very painful and have really serious consequences besides making the skin look like raw beef, blistery and bad. It really is too high a price to pay for a few hours of sunning, so if you don't want days and days of misery limit your exposure to the sun's direct rays to a matter of very few minutes at first.

## My Neighbor Says—

One of the most important things in producing dahlias is the idea of pruning and disbudding. Ordinarily you see dahlias shooting up into the air. The thing to do is to cut them off just above the second node or second set of leaves when the plants are about 10 or 12 inches high. This will cause them to branch and produce more flowers. Then each of these branches may in turn be pinched above its first node and these in turn will produce other branches. In that way you will get a nice, bushy plant which isn't too high.

This is especially true with children who are just beginning to use language as a means of expression. The before-school group, Father throws down his paper and angrily denounces its latest statements: "The country is going to ruin. It isn't safe for decent men to live in."

What he means is that he heartily disagrees with someone of the opposite party, but the little child listening to his roar of wrath trembles inwardly and is afraid of some vague danger that threatens father, for surely father is a "decent man." His tone said so.

The wrong dish is served for refreshments at a party, and brother, to express his disapproval, of the whole affair, tells his family: "The food would poison you. Wasn't fit to eat!" The little child knows the word poison, and the word food. There is something wrong and the vague fear rises. This time about food.

A relative comes in for a visit in the evening, and he and father talk over the affairs of the nation. "These foreigners are a bad lot," says Uncle Peter firmly. "A bad lot. Yes, Sir! A mighty bad lot." The little one knows about foreigners and knows about badness. The fear of foreigners vaguely flits through his mind, ready to rise in strength when the organ grinder comes along or the merry-go-round man with the lovely horses and camels. "He's a bad lot."

He's a bad lot."

## Choose Words Carefully When Children are Near

BY ANGELO PATRI

"Children have long ears," says the old fable. Certainly they have keep hearing and it behoves us to be a bit careful about what we say in their presence, thinking that they do not understand and are not interested. Strange words uttered with dramatic intensity stay in the minds of children and haunt them into sleepless nights. Too puzzled to know to ask the meaning of them, or to question their validity, they brood over the ideas they suggest until fear takes hold of them.

This is especially true with children who are just beginning to use language as a means of expression. The before-school group, Father throws down his paper and angrily denounces its latest statements: "The country is going to ruin. It isn't safe for decent men to live in."

## A Frenchman's Gifts

Among the persons who read about Captain Cook's visit to Easter Island was a Frenchman—Count Jean de La Perouse. Learning that the people on the island had only a few kinds of food plants, he said to himself:

"How fine it would be if someone went there and gave the natives seeds of many plants!"

The subject of our story protests that the sun was not strong, that she did not expose her face for long and that for two days afterward she merely thought she had an ordinary case of slight sunburn. Then her forehead became swollen, her eyes so puffy all around that they looked like wee slits, her nose was swollen too and her lips broke out in a dozen places. In fact, they were so badly infected that she had to have the little blisters lanced by her physician. It took fully two weeks for them to heal and in the meantime she was, as she herself puts it "a sorry sight."

The visit of this kind-hearted Frenchman is one of the happy pages in the story of exploration. I am sorry to say that only about a year later he was lost in a shipwreck, but the memory of his goodness to the Easter Island people lives after him.

The record left by La Perouse speaks of stone statues on Easter Island, but does not mention strange writing found there by other explorers. Scholars have been puzzled by this writing, which was scratched on pieces of hard wood with

stones. Some of the strange writing found on Easter Island.

As it turned out, La Perouse was the "someone" who did the deed. Chosen by the French government to head voyage of discovery, he remembered the Easter Island folk, and took seeds along to give them. He left France on an August day in 1770, with two ships.

Strangely enough, pieces of ancient writing very much like that on Easter Island were found in the Indus valley of India a few years ago. The writing of India is believed to date back four or five thousand years, and its meaning is not clearly known.

## Sadie Orr Dunbar Sees Women as Social Force

Portland, Ore.—Sadie Orr Dunbar organized womanhood should solve the social problems of the United States. Because she worked to put this belief into practice, Mrs. Dunbar has just been elected president of the General Federation of Women's clubs.

The new head of the world's foremost organization of women is a large woman with soft brown hair—slightly gray and unbobbed. She has blue eyes and a ready smile. Friends say she has a comforting personality, and that one's first impression on meeting her is that "you could sit down and talk to her anytime."

But 57-year-old Mrs. Dunbar is considerably more than a confidante. Missouri-born, she came to Oregon as a child, was graduated from Portland university, and started her club work in 1908, three years after her marriage. (Her husband died in 1928; they had two children.)

Interested primarily in public health, she was chairman of public health for the Oregon Federation of Women's clubs, and in 1918 became executive secretary of the Oregon Tuberculosis association. She held that post until her recent election.

Oregonians say she made the tuberculosis association one of the state's most vital organizations. Her work won her an honorary degree of doctor of humane letters from Oregon's Linfield college last year—the first ever given to a woman by that school.

Besides her work with the association, she was an instructor in community organizations in the University of Oregon's department of nursing education.

In 1935, elected first vice-president of the General Federation, she expressed her creed this way:

Woman must "plumb to the very

depths their own potential force as organized women for the definite solution of some of our unsolved social problems."

OCTAGON HOUSE  
BY PHOEBE ATWOOD TAYLOR

The Story So Far: Unscrupulous Marina Lorne, whose husband's post office mural has aroused Quanomet, is murdered by a left handed blow from her sister's knife. Pam Frye appears to Asey Mayo, Cape Cod detective, telling him she found \$50,000 worth of ambergris which Marina tried to claim, and hid it after discovering the murder. Pam disappears from Asey's house because an unknown person, who smokes Turkish tobacco, is trailing her to learn the whereabouts of the ambergris. Asey discovers that agreeable Tim Carr, a boarder at the Frye's Octagon House, is left handed, smokes Turkish tobacco, and hated by Marina in New York; wealthy Roddy Strutt smashed a new plane in the square; and gabby Nettie Hobbs is swearing Pam is the murderer.

Chapter 14  
Asey In Disguise  
SEY walked back to the kitchen door and yelled for Jennie. "Where's Syl's truck?"

"That old thing?" Down in the back garden. He was gettin' loam." "He won't need it today if he's quonoggin'" Asey said. "I'm goin' to A. An' where's my old paintin' overalls an' coat?"

"Asey Mayo," Jennie said in desperation, "you can't wear them in public! They're all torn, so torn I didn't even mend 'em."

"Jennie," Asey said, "you roust out my paintin' overalls, an' my coat. An' that cap."

"Not the cap! Oh, Asey, you can't go out wearin' that cap! It makes you look like Uncle Corn!"

Jennie protested later when he put on the old glasses she had found in the sewing machine drawer.

"Now," she said, "you look like a deacon. An' if you try to drive Syl's truck with 'em on, Asey, you'll kill yourself. They was Aunt Phrone's, an' she got 'em from a mail order house with a test-your-own eyes card, an' the only time she wore 'em, she walked plumb into the cistern."

After a brief interlude in Syl's potato patch, during which the truck barely escaped overturning, Asey came to the conclusion that perhaps Jennie was right about the glasses. Regretfully, he put them in his pocket for future use.

He sailed by his friend the state policeman, on duty at the Quanomet four corners, without even getting a second glance. Quanomet's Main Street ignored him, except for the short, harrid and sunburned Quasen, who made loud inquiries about the price of hay.

"Look here, woman," Asey picked up a can to his face, "this ain't the one I want. This is my nice clean new one. I want the old dirty one that says in red let-

ters 'SORE ABOUT THE MURAL'."

"Classees," Asey said. "Isn't there an old pair with gold rims around somewhere? They belonged to someone or other. You find 'em while I get me the rest of my traps."

"Not a gun bottle!" Jennie said anxiously.

"None, just some paint an' brushes. What would you say was the predominant color in Quanomet, white an' green?"

"An' yellow. Lots of yellow."

"I forgot 'em," Asey said, "entirely. Well, if they need paintin', it'll have to be with the punkin' I got 'em over from the kitchen floor. I ain't got any yellow."

Jennie protested later when he put on the old glasses she had found in the sewing machine drawer.

"Now," she said, "you look like a deacon. An' if you try to drive Syl's truck with 'em on, Asey, you'll kill yourself. They was Aunt Phrone's, an' she got 'em from a mail order house with a test-your-own eyes card, an' the only time she wore 'em, she walked plumb into the cistern."

New York—(P)—The stock market bogged down today under extremely light selling.

Losses ran to 2 or more points at the worst, but support in the final hour enabled pivotal issues to chip down extreme declines and here and there modest plus signs were in evidence at the close. There were several new 1938 lows recorded.

Transfers were under 400,000 shares.

Erratic movements of commodities did much to temper what little buying urge was present in the stock list.

Steels backed water from the start and the American Iron & Steel Institute later estimated this week's mill operations off 2.9 points to the lowest rate since early in January.

Among prominent share sliders were U. S. Steel, Chrysler, U. S. Rubber, Woolworth, Boeing, Standard Oil of N. J., Texas Corp. and Anaconda, Kennecott, Consolidated Edison, Du Pont, General Electric, Eastman Kodak and Montgomery Ward.

Carriers did better than other groups, but advances were scarce in this division. Resistance was shown by American Can, Dome Mines and United Aircraft.

Lambs and Cattle Are Quoted Higher

Weaker Tendency Rules Dealings in Hogs At Chicago

Chicago—(U. S. D. A.)—Fat lambs opened higher on the small run today and most slaughter classes of cattle were higher with water fills liberal and favoring the selling side. Hogs, however, weakened and the market was draggy at the decline.

Hogs 21,000 including 2,000 direct; market slow, uneven; mostly 10-15 lower than Friday's average following few early sales steady to 10 off; top 8.90; good and choice 170-200; lots 8.60-90; 270-350 lbs. 8.40-65; good mediumweight and heavy packing sows 7.65-90; smooth light weights and butcher kinds 8.00-15.

Cattle 13,000; calves 2,500, fed steers and yearlings strong to 15 higher; fairly active on shipping account; liberal water fills favoring selling side; early top 10-40; steers held above 10.50; yearlings up to 9.00; heifers 10-15 higher; top 9.50; cows strong to unevenly higher; supply very small; most cutter grade sows 4.50-5.75; bulls 12.5-15 up from low time last week; mostly 6.75-90 on weighty sausages; bulls 7.00 paid sparingly; vealers steady to weak; mostly 9.50 down; few 10.00.

Sheep 7,000 including 1,900 direct; fat lambs and springers active, strong to 25 higher; sheep mostly 7.00-8.50; stockers fully steady; plain to medium grades 5.50-6.75. Calves 3,000; vealers steady to weak; good 7.50-8.50.

## Live Doctrine of Peace, Crow Urges In Memorial Talk

Program at High School Auditorium Follows Water Service Parade

New London — "Live and preach the doctrine of peace and preserve American democracy," Attorney William Crew of Appleton urged in a Memorial day address at the Washington High school auditorium yesterday morning.

Believing war is possible, Crow declared that while war is still glorified we must work as dynamically for peace as others are for war and constantly raise our voice against it. In a plea for the preservation of democracy he declared that demagogues must be removed from public office, sincere and far-sighted men voted into these places, the constitution of our forefathers should be upheld to the letter, legislation must be slowed down, the democratic spirit should prevail in all education, and the rights of the many minorities must be forever recognized. Political parties are necessary to the United States, according to the speaker, but for the best interests he advocated not more than two major national parties.

### Legion in Charge

The Memorial day services were arranged and conducted by the Norris-Spencer post of the American Legion and the auditorium program followed water services at Taft's park and a parade of patriotic and school groups, led by the high school band. Services were held afterwards at the grave of John J. Burns at the parish cemetery of the Most Precious Blood church. Wreaths were placed by Juniors of the Auxiliary and Sons of the American Legion.

Honored on the speaker's stage at the program were Mrs. Harley Heath, mother of the New London unit of the Women's Relief corps; Bernard Klatz and William McNicols, two remaining Spanish war veterans; and Mrs. Louis Kurszewski, Gold Star mother.

Patriotic heads introduced were Mrs. Ed Kleinbrook, president of the Women's Relief corps; Mrs. D. B. Egan, president of the American Legion auxiliary; Martin Abraham, commander of the Learman-Schallier post of the Veterans of Foreign Wars; and Helmuth Ehrenreich, commander of the American Legion Post. Alderman Otto Stern represented city officials.

An addition to the program was a vocal solo by Miss Ethel Knapstein accompanied by Maurice Levine. Emil Gehrike, Memorial day chairman, acted as master of ceremonies.

## Mrs. Ida Granger, New London, Dies

Woman Suffered Hip Fracture in Fall at Home Three Weeks Ago

### New London Society

New London — Mrs. Ida Granger, 59, 304 E. Quincy street, died about 5 o'clock yesterday morning at a New London hospital. She suffered a fractured hip in a fall at her home three weeks ago and had been in the hospital since that time.

Mrs. Granger was born Jan. 30, 1879, at Shore of Lake Ontario, Prince Edward county, Canada. Her parents moved to the state of New York when she was nine and came to Wisconsin while she was still a young girl. She was married to Frank Granger in New London in 1902, after which they lived in Granger for 20 years, returning to New London with their family in 1922.

Survivors are two daughters, Mrs. Eugene Wiedenbeck, Kaukauna, and Mrs. Louis Landreis, New London; three sons, Floyd, New London; Elmer, Kaukauna; and Fay, last employed at Sheboygan; one brother, Alvin DeGroot, New London; one sister, Mrs. C. O. Cowell, Antioch, and 12 grandchildren.

Funeral services will be held at 1:30 Thursday afternoon at the Floyd Granger home at 34 E. Hancock street and at 2 o'clock at the Methodist church. The Rev. R. R. Holliday will be in charge and burial will be in Forest Hill cemetery. The funeral will be at the Floyd Granger home until the time of the services.

### Lutheran Men to Hear Talk on Cancer Control

New London — Dr. H. C. Schaefer, a surgeon and cancer expert, will speak at a meeting of the Lutheran Men to be held this evening according to A. H. Maffett, pastor. The meeting will follow a regular Lutheran meeting after 8 o'clock and entertainment will be furnished.

New London Office News and circulation departments of the Appleton Post-Crescent are represented in New London by Alvin J. Brault, 103 E. Cook street. News items and orders for subscriptions may be left at that address or may be telephoned by calling 18. Papers missed by carriers will be delivered if complaint is made before 7 p.m.

### Knights of Columbus Will Elect Officers

New London — Election of officers will be held by the Knights of Columbus at the parish hall Wednesday evening. Principal officers are W. M. Garot, grand knight; George Ross, deputy grand knight; E. G. Jagoditch, recording secretary; R. D. Wilkinson, financial secretary; Leonard Cline, treasurer.

## Borden, Hamilton Softball Teams to Open Loop Season

### New London Industrial League Play Will Begin Monday

New London-Bordens and Hamilton's Local 1107 will open the New London city industrial league softball season Monday evening June 6, at the Washington High school grounds, it was announced by President William Dayton after a league meeting Saturday night.

A 6-team league will operate on last year's schedule with new names inserted. The New London council of the Knights of Columbus has entered a new team. The squad managed by Bob Ullerich is still without a sponsor and while there are several other groups considering the league, the sponsor of the sixth team is not yet definitely settled, according to Dayton. The Plywood will have a team but the Gehrike Brothers aggregation has dropped out.

Dayton will continue as president of the league. Jerome Zaug was elected secretary-treasurer to succeed Art Gottschalk.

A set of written by-laws were adopted for the first time in the history of the league. All games will be played at 6:30 Monday, Wednesday and Friday evenings at the Washington High school grounds. The losing team will pay \$1 into the league treasury, the sum to be raised by each losing player forfeiting 10 cents.

### Umpires Get 50 Cents

Umpires will be hired for 50 cents a game and President Dayton was instructed to seek applicants and engage several. The umpires will be paid from the \$1 forfeit and the balance remaining in the treasury at the end of the year will be used for a league party.

Young players around 18 years of age will be accepted for the various teams even though they are not employed or definitely associated with any of the sponsored groups, it was decided. Such additions to the teams will be made through team managers.

Managers are as follows: Borden, Carl Jerome; Plywood, Vernon Burton; Ervin Schimke, Tom Johnson; K. C.'s, Orr Glandt, Greg Charlesworth; unsponsored, Bob Ullerich. Schedules and by-laws will be mimeographed and distributed this week. Team rosters will be handed to umpires before the first games.

### New London Society

New London — The Ladies Aid society of Emanuel Lutheran church will meet Thursday afternoon at the church parlor. The committee in charge is Mrs. Art Lasch and Mrs. Henry Lippold, co-chairmen, Mrs. Bernard Handrich, Mrs. Herman Gottgotte, Mr. Ralph Lathrop, Mrs. Etta Lovejoy, Mrs. Ed Lund, Mrs. August Marzinko, Mrs. A. R. Marzinko, Mrs. William Marzinko, Mrs. Otto Krueger, Mrs. Alvin Kusserow, Mrs. Fred Kusserow, Mrs. Herman Kusserow.

### Gordon Meiklejohn, Jr., Wins Flag Tournament

New London — Gordon Meiklejohn, Jr., took first prize in the flag tournament at Springvale Golf course yesterday morning. About 20 took part in the tourney and six were tied for second place honors. Ideal weather yesterday drew a large number of players to the course in the afternoon.

### AWARDED SCHOLARSHIP

Royalton — Miss Lena Kelly, junior at the University of Wisconsin, daughter of Mrs. George Kelly of this place, has been awarded an intra-mural Woman's Athletic association scholarship at the senior swing-out. Miss Kelly is a graduate of Little Wolf High school.

Funeral services will be held at 1:30 Thursday afternoon at the Floyd Granger home at 34 E. Hancock street and at 2 o'clock at the Methodist church. The Rev. R. R. Holliday will be in charge and burial will be in Forest Hill cemetery. The funeral will be at the Floyd Granger home until the time of the services.

## Many Fishermen In Fremont Area

### Hundreds of Out-of-Town Residents in Village Over Weekend

Fremont — Fremont was again host to hundreds of out-of-town fishermen over the weekend and Monday. Scores of boats appeared on the water and the state bridge across the Wolf river had its usual crowd of fishermen. Good fishing probably will continue another two weeks.

The Rev. Harvey Feustal of Emmanuel Lutheran church, Zittau, gave the Memorial day address Monday morning at the Lakeside cemetery, under the auspices of Wolf River post of the American Legion. Walter Endries, commander of the local post, also gave a short talk.

A program by the local school children under the direction of Miss Freda Zuchelli was presented at the cemetery. The program closed with the firing squads and taps.

Relatives and friends were entertained at a party Saturday evening at the home of Mr. and Mrs. Lark Lovejoy, in honor of Mrs. Lovejoy's birthday anniversary. Schafskopf was played and a lunch was served.

The Ladies Aid society of St. Paul's Lutheran church will meet Thursday at the church.

Information was received here by relatives at Anaheim, Calif., of the death of Mrs. Emily Crownier, 75, a former Fremont resident. Her death occurred Saturday. The body is expected to arrive at Oshkosh, Wednesday where funeral services and burial will take place. Mr. and Mrs. Frank Looker will attend the funeral.

Mrs. James Roberts and Mrs. Lydia Rideout of Portland, Ore., were guests with relatives here last week.

Mrs. William Diedrick has been receiving medical treatment at Oshkosh for an attack of rheumatism.

Mr. and Mrs. William Behnke entertained Mr. and Mrs. David Zorn of Milwaukee over the weekend.

### Memorial Day Program Held at Hortonville

Hortonville — Memorial day was observed in Hortonville with a program at the Community hall at 9:30 in the morning. The Rev. R. Holliday of New London, state chaplain of the American Legion, gave the Memorial day address.

Children of the Hortonville public, Catholic and Lutheran parochial schools took part in the program.

The procession marched to the Hortonville pond on which wreath was placed in honor of the sailor dead. Taps were sounded by Burt Lamb, a member of the band.

The band played "The Star Spangled Banner." From the pond the group moved to the union cemetery where the graves of two war veterans were decorated in honor of the dead soldiers of all wars.

### Be A Safe Driver

"HELLO EVERYBODY!

Here I am in Camel town.

Am I impressed? Every-

body looks so happy — so

enthusiastic! You'd think each one

of the 13,000 Reynolds workers owned

Camels in 12 years. When that old

whistle blows, all the officials in this

place are right on the job too. And

they have only one job — making

Camels so good that more people smoke

them than any other cigarette. Yes

— that's everybody's job at Camels.

Imagine a place like this Camel
